ABSTRACT

This volume contains social studies assessment data and exercises from the National Assessment of Educational Progress (NAEP). NAEP is an information-gathering project that surveys the educational attainments of 9-year-olds, 13-year-olds, 17-year-olds, and adults (ages 26-35) in 10 learning areas, one of which is social studies. Different learning areas are assessed every year, and all areas are periodically reassessed in order to measure educational change. This volume contains all the social studies assessment data which have been collected, scored, and analyzed to date and copies of approximately one-half of the social studies exercises that have been used in past assessments. Not included in this document are those social studies exercise tests which the National Assessment will administer again in the future to determine whether the performance level of Americans has improved or declined. However, the objectives that were measured by these unreleased exercises and their percentage results are presented. For exercises that have been released, this volume provides an exact copy of the exercise, complete documentation about administration and scoring procedures, and the percentage results for the national sample and each of the subpopulation reporting groups. Researchers who need detailed information about the exercises and state and local educators who want to use NAEP exercises in their own assessment program will find this documentation useful. (Author/RM)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original.

# FOREWORD

The National Assessment of Educational Progres (NAEP) is an information-gathering project that surveys the educational attainments of 9-year-olds, 13-year-olds, 17-year-olds and adults (ages 26-35) in 10 learning areas: art, career and occupational development, citizenship, literature, mathematics, music, reading, social studies, science and writing. Different learning areas are assessed every year, and all areas are periodically reassessed in order to measure educational change.

Each assessment is the product of several years work by a great many educators, scholars and lay persons from across the country. Initially, these people design objectives for each area, proposing specific goals that they feel Americans should be achieving in the course of their education. After careful reviews, these objectives are given to exercise (item) writers, whose task it is to create measurement tools appropriate to the objectives.

When the exercises have passed extensive reviews by subject-matter specialists and measurement experts, they are administered to national probability samples of 9-year-olds, 13-year-olds, 17-year-olds and young adults between 26-35. The people who compose those samples are chosen in such a way that the results of their assessment can be generalized to the national population. That is, on the basis of the responses of about 2,500 9-year-olds on a given exercise, we can estimate the percentage of all 9-year-olds in the nation who can perform a task acceptably. Approximately 100,000 persons participate annually.

After assessment data have been collected, scored and analyzed, National Assessment publishes reports to present the results as accurately as possible. In this report data are included for all exercises, but the exact exercise text is provided for only the released exercises. Some exercise texts are unreleased at this time because National Assessment will administer these exercises again in the future to determine whether the performance level of Americans has improved or declined. Approximately one-half of the social studies exercises have been retained for use in the second assessment. For the unreleased exercises, documentation of the objectives that were measured and the percentage results are presented in order to show the extent of the total assessment effort.

For exercises that have been released, this volume provides a copy of the exercise, complete documentation about administration and scoring procedures and the percentage results for the national sample and each of the subpopulation reporting groups. Researchers who need detailed information about the exercises, and state and local educators who want to use NAEP exercises in their own assessment programs, will find this documentation useful.

A general summary of the social studies results can be found in *The First Social Studies Assessment: An Overview, Report 03-SS-00.* Also available is the *Social Studies Technical Report: Summary Volume, Report 03-SS-21*, which provides summary data for the age levels and reporting groups for subsets of exercises within the objective and reporting theme classifications. There are two reports based on subsets of the social studies exercises. The first, *Political Knowledge and Attitudes, Report 03-SS-01*, deals with elections, the Constitution, attitudes toward American society and knowledge of the role and function of government. The second, *Contemporary Social Issues, Report 03-SS-02*, presents various kinds of information about the perceptions people have of contemporary society. National Assessment also publishes a general information yearbook that describes all major aspects of the assessment process. The reader who desires more detailed information about how National Assessment defines reporting groups, designs the sample, prepares and scores the exercises and analyzes and reports the results should consult the *General Information Yearbook, Report 03/04-GIY.* All of these reports are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

National Assessment has also prepared computer data tapes that contain the original, unanalyzed response data for all of the exercises. Information about the contents of the tapes can be obtained from National Assessment.

# ACKNOWLEDGMENTS

Many people have made substantial contributions to the social studies assessment, from the beginning of the National Assessment of Educational Progress (NAEP) in 1964 to completion of this technical report. Unfortunately, it is not possible to acknowledge them all here, and an apology is due to those whose names have been omitted.

The original preparation of the objectives and exercises in the area of social studies was handled by the Educational Testing Service (ETS). Additional exercises in the attitudinal domain were developed by the American Institute for Research (AIR). These materials were reviewed by dozens of consultants, including social scientists, social science educators and interested lay persons.

The administration of the social studies assessment was conducted by the Research Triangle Institute (RTI) and the Measurement Research Center (MRC). Scoring and processing were carried out by MRC and by the NAEP staff. Louise Diana of MRC provided assistance in developing and refining categories used to score the exercises.

Special mention must be made of Milan Marich, University of Michigan, for his consultation throughout all phases of the assessment. His suggestions and reactions regarding exercises, scoring procedures and analyses schemes were greatly appreciated.

The implementation of the social studies assessment was a collaborative effort of the National Assessment staff. Special thanks must be given to the following people and departments. Richard Hulsart, Exercise Development Department, was involved in all phases of the assessment and had major responsibility for monitoring the developmental stages. Ina Mullis, Research and Analysis Department, planned and supervised the technical analysis of the social studies data and wrote and compiled this report. Special assistance throughout the assessment was provided by Susan Sullivan, and programming support was provided by William Ankeny, both of the Data Processing Department. Thanks are also given to Janet Bailey, Research Assistant, Research and Analysis Department; Robert Crane, Writer, and Marci Reser and Eileen Wollam, Production Assistants, Utilization/Applications Department.

Special thanks must also go to J. Stanley Ahmann, who directed the NAEP program throughout the period in which this information was gathered and reported.

Project Director

# CHAPTER 1

## DESCRIPTION OF THE SOCIAL STUDIES MATERIALS AND DATA

In the 1971-72 assessment of social studies, 9-year-olds, 13-year-olds, 17-year-olds and young adults aged 26-35 -- age levels that correspond to the end of primary, intermediate, secondary and postsecondary education -- were asked a variety of questions designed to measure achievement of five broad educational objectives in social studies. These objectives are: (1) that Americans should have curiosity about human affairs; (2) that they should use analytic-scientific procedures effectively; (3) that they should be sensitive to creative-intuitive methods of explaining the human condition; (4) that they should have knowledge relevant to the major ideas and concerns of social scientists and (5) that they should have a reasoned commitment to the values that sustain a free society.

For presentation in this volume and other National Assessment of Educational Progress (NAEP) reports, the social studies exercises have been divided into three broad areas -- skills, knowledges and attitudes. Within these areas the exercises have been further classified into a number of subthemes for purposes of analysis. An outline of the types of exercises that were classified into these themes follows.

I. Skills
    A. Obtaining information
        1. Raises questions and seeks answers related to a variety of issues
        2. Identifies sources most suitable to solve a particular problem or find particular information
        3. Uses standard reference sources and aids to locate information
    B. Interpreting information
        1. Uses basic problem-solving techniques of the social sciences to interpret information of various kinds
        2. Interprets graphs and maps effectively
        3. Uses a variety of nontraditional sources of information

II. Knowledges
    A. Economics
        1. Understands some of the basic characteristics of

- economic systems that are common to all industrial societies
- B. Geography
  - 1. Has knowledge of worldwide spatial distribution and interrelationship of the major features of man's physical and cultural environment
- C. History
  - 1. Understands some of the major developments in U.S. history
  - 2. Understands some of the major developments in world history
- D. Political science
  - 1. Knows some of the individuals and groups responsible for making government decisions
  - 2. Understands some of the rights and responsibilities granted in the Constitution
  - 3. Knows something about the election process and the role of political parties
  - 4. Understands some of the processes involved in political socialization

III. Attitudes
- A. Rights of the First Amendment
  - 1. Believes in the freedoms of the First Amendment and can justify that belief
- B. The worth of the individual
  - 1. Believes people should become involved in making decisions that affect their lives
  - 2. Has a sense of responsibility for the interest of others
  - 3. Respects the views and feelings of all people
  - 4. Believes in the rule of law and can justify that belief

Several types of information, including cross reference to objectives and theme classification, are produced on each exercise-documentation page. Parts A and B of a sample exercise and the documentation page for that exercise are shown below. The copy of the exercise shown is identical to the one seen by the respondent, except that the correct response oval has been darkened.

## Explanation of Sample Documentation Page

I. Exercise identification systems

Release #: RKP08

RKP08: The first letter in the identifier indicates that the exercise is released (R) or unreleased (U).

Consider each of the following laws and decide which level of government (federal, state, or local) would be MOST likely to pass it. Fill in the oval beside "Federal government" if the federal government would pass it, the oval beside "State government" if a state government would pass it, or the oval beside "Local government" if a local government would pass it. If you do not know the answer, fill in the oval beside "I don't know."

A. Which one of the following would MOST likely pass an act to set up a central university with branches in several cities?

○ Federal government
● State government
○ Local government

○ I don't know

B. Which one of the following would MOST likely pass an act to raise the rates for sending letters through the mail?

● Federal government
○ State government
○ Local government

○ I don't know

Release #: RKP08

NAEP #: 406035-234

Theme: KNOWLEDGE.
Subtheme: Political science.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

| | | 13 | 17 | Adult |
|---|---|---|---|---|
| Overlap: | | | | |
| Package-Exercise: | | 05-12 | 02-14 | 03-15 |
| National P-value: | | | | |
| | RKP08A | 71.38 | 83.75 | 79.11 |
| | RKP08B | 71.68 | 89.82 | 95.02 |
| | RKP08C | 73.43 | 89.37 | 91 47 |
| | RKP08D | 77.05 | 91.45 | 91.79 |
| Timing: (in seconds) | | | | |
| | Introduction: | 18 | 18 | 18 |
| RKP08A | Stimulus: | 18 | 18 | 12 |
| RKP08A | Response: | 18 | 17 | * |
| RKP08A | Total: | 37 | 36 | * |
| RKP08B | Stimulus: | 12 | 13 | 11 |
| RKP08B | Response: | 17 | 18 | * |
| RKP08B | Total: | [illegible] | 29 | * |
| RKP08C | Stimulus: | 12 | 13 | 11 |
| RKP08C | Response: | 17 | 16 | * |
| RKP08C | Total: | 30 | 30 | * |
| RKP08D | Stimulus: | 12 | 12 | 11 |
| RKP08D | Response: | 16 | 17 | * |
| RKP08D | Total: | 16 | 18 | * |
| | Exercise Total: | 175 | 171 | * |

*Time not limited by paced tape.

RKP08: The second letter indicates the area within which the exercise is classified. This will always be skills (S), knowledges (K) or attitudes (A).

RKP08: The third letter indicates the topic -- in this case "political science."

RKP08: The next two digits indicate the exercise placement within a topic.

RKP08A: Sometimes the last two digits are followed by a letter -- A through F. These letters indicate the exercise was one part of a multipart exercise.

In this volume exercises are ordered by release number, and therefore, by theme and topic.

| | |
|---|---|
| NAEP #: | 406035-2,3,4 |
| 406035-2,3,4: | The first number indicates the objective. |
| 406035-2,3,4: | The third number indicates the subobjective. Number 1-A, 2-B, 3-C, etc. |
| 406035-2,3,4: | These next two digits are simply a sequence number. |
| 406035-2,3,4: | The numbers following the dash indicate the age levels that responded to the exercise. One for 9-year-olds, 2 for 13-year-olds, 3 for 17-year-olds and 4 for adults. |

II. Theme and subtheme

Theme: Knowledge

Subtheme: Political science

Each exercise is classified into a theme and subtheme. If exercises were felt to belong in more than one theme, the other areas into which they are classified are also listed.

III. Objective and subobjective

Objective: IV. Have knowledge relevant to the major ideas and concerns of social scientists

Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States

Each exercise was written to measure one of the social studies objectives. A booklet describing the objectives and their development is available from the U.S. Superintendent of Documents or National Assessment.

IV. Administration and scoring descriptors

Exercise type: Multiple choice

The social studies exercises are either multiple choice, short answer or longer answer. A short-answer exercise requires the student to fill in anything from one or two words up to several sentences. A longer-answer exercise requires a paragraph or more. Most of the social studies exercises are multiple choice or short answer.

Scoring type: Machine

The multiple-choice exercises are scored by machine, an optical scanner. The short-answer and longer-answer questions are scored by a staff of specially trained personnel. Three of the exercises were scored by special experts and are designated as professionally scored.

Administration mode: Group

Many exercises were administered to groups of 12 respondents. Those exercises designated as individual were administered on a one-to-one basis in an interview. Most of the short-answer and longer-answer exercises were administered individually at age 9.

## V. Stimulus type

Stimulus type: Text

All group-administered exercises are given with a printed stimulus and a paced tape. For those exercises without special stimulus material, the stimulus type is designated as "text." If the exercise involved a song, poem or picture, that information is also documented. In these cases, the necessary copyright information is also provided.

## VI. Packaging information and national p-values

| Overlap: | Age 13 | Age 17 | Adult |
|---|---|---|---|
| Package-exercise: | 05-12 | 02-14 | 03-15 |
| National p-value: | | | |
| RKP08A | 71.34 | 83.75 | 79.11 |
| RKP08B | 71.68 | 89.82 | 95.02 |
| RKP08C | 73.43 | 89.37 | 91.47 |
| RKP08D | 77.05 | 91.45 | 91.79 |

All four age levels were not asked to respond to all the exercises. In some cases, an exercise was administered to only one age level, for example, to 9-year-olds. Others were administered to two or more adjacent age levels and are called overlap exercises. The "Overlap" descriptor tells which age levels responded to the exercise. The "Package-exercise" descriptor shows for each age which booklet or package the exercise was printed in and the exercise number within the package. In-school respondents (9-year-olds, 13-year-olds and 89% of the 17-year-olds) took only one package of exercises. Out-of-school respondents (11% of the 17-year-olds and all of the young adults) were allowed to take up to four packages.

The "national p-value" is the percentage of individuals at that age level who could answer the question correctly or could answer the question at a level that subject-matter specialists felt indicated achievement of the objective that the exercise was designed to measure. For multiple-choice exercises, the acceptable answer is darkened on the copy of the exercise. For open-ended exercises the designated level of acceptable response is noted on the scoring guide. By looking at the previous table, we can see that 71% of the 13-year-olds, 84% of the 17-year-olds and 79% of the adults responded to Part A of the exercise correctly.

## VII. Administration times

Timing (in seconds):

| | | | | |
|---|---|---|---|---|
| | Introduction: | 34 | 34 | 34 |
| RKP08A | Stimulus: | 14 | 14 | 12 |
| RKP08A | Response: | 18 | 17 | * |
| RKP08A | Total: | 37 | 36 | * |
| RKP08B | Stimulus: | 12 | 13 | 11 |
| RKP08B | Response: | 17 | 18 | * |
| RKP08B | Total: | 34 | 29 | * |
| RKP08C | Stimulus: | 12 | 13 | 11 |
| RKP08C | Response: | 17 | 16 | * |
| RKP08C | Total: | 34 | 34 | * |
| RKP08D | Stimulus: | 12 | 12 | 11 |
| RKP08D | Response: | 16 | 17 | * |
| RKP08D | Total: | 36 | 38 | * |
| | Exercise total: | 175 | 171 | * |

*Time not limited by paced tape.

Those researchers planning to reassess the National Assessment exercises will need to know their exact administration times. The tape recordings used in each group administration were timed in order to arrive at the figures presented in this report. The *stimulus* time is the time required to read on the tape the entire exercise or exercise part including the alternative responses. The stimulus time also includes the time for other supporting stimulus material such as songs or poems. The *response* time is the period of silence allowed on tape for respondents to record their answers. The *total* is the total elapsed time required to administer an exercise. The total time is almost always greater than the sum of the stimulus and response times. After the response time, in multiple-choice parts of exercises, there is a five-second interval during which respondents are told, "If you do not know the answer, please fill in the oval beside 'I don't know.'" After that, there is a six-second pause before the announcer goes on to the next exercise. Since individually administered exercises are read by administrators to respondents, they do not have paced tape recordings and therefore do not have timing information.

## Scoring Guides

Open-ended exercises are accompanied by copies of the scoring guides that provided the criteria used to categorize the responses. A sample open-ended exercise and scoring guide follow.

### Sample Open-Ended Exercise

Each exercise is presented exactly as it appeared to the respondents. Each exercise was on a separate page in a package. Individually administered exercises are presented as they appear to the exercise administrator. An example of an individually administered exercise is presented below.

Suppose there are two men running for mayor in your town. One candidate thinks a large area of land in your community should be made into a public park, and the other candidate thinks the land should be used for industry.

A. Tell me two things you could do to find out why each candidate thinks as he does.

(1) ______________________________

______________________________

______________________________

(2) ______________________________

______________________________

______________________________

*(If respondent answers "Nothing" OR no response is given in 10 seconds, go to B.*

*If respondent pauses after first response ask, "Is there anything else you could do?"*

*Stop after 2 responses OR when respondent answers "No" OR no response is given in 10 seconds.)*

*(Go to B)*

## Sample Scoring Guide

The scoring guide for the exercise dealing with finding out about two men running for mayor follows. For this guide and all others those categories that start with a 1 (10s and 100s -- 10-15 on the sample guide) are considered acceptable responses and those categories in the 20s and 200s (28-29 on the sample guide) are not considered acceptable in terms of the objective being measured by the exercise.

After each category heading a few representative sample responses are listed and the ages at which they occurred are specified. "All ages" means the type of responses in the category did not differ significantly across ages.

To achieve an acceptable level of performance for this exercise, respondents had to tell two things that were classified in categories 10-15. The acceptable level of performance is noted in the text with the data for each exercise.

## The Results for Each Exercise

As explained earlier, for each released exercise, a copy of the exercise, a documentation page, and for open-ended exercises, a scoring guide, are included. For unreleased exercises only, the documentation page (noting among other things the type of exercise and the objective and theme it was designed to measure) is included. However, every exercise is accompanied by a complete appendix of results. A brief description of National Assessment's sample design, reporting populations and subpopulations and the data analysis used to compute these results follow.

## Sampling

The exercises were given to a national probability sample of 9-year-olds, 13-year-olds, 17-year-olds (including high school dropouts and early graduates) and young adults between the ages of

## SCORING GUIDE: PART A

Categories and sample responses are listed below.

### 99 = NO RESPONSE

### 10 = QUESTIONS CANDIDATE (ACTIVE)

All ages
Interview them.
Talk to them and let them tell you what they think. Find out what they like.
Ask him why he wanted a public park.
Get a group together and try to communicate with him.
I could try to make an appointment with them.
Write a letter and ask for a reply.
Call and ask their opinion about things.

### 11 = RESEARCHES CANDIDATES' BACKGROUNDS OR ATTITUDES

Age 13
Talk to someone real close to them, a running mate or someone.

Age 17
Look into their past.
Go check on his records. Go down to the administration and find out about him.
Ask someone who's in office with him.
By looking up their background history.
Find out where the candidate lives to see if perhaps this might influence his decision.

Adults
Talk to other people in the neighborhood he lives in to find what he's really going after.
Find out if either of them has any financial interest or stands to profit.
Who is backing each campaign.

### 12 = RESEARCHES USE OF LAND OR NEEDS OF COMMUNITY THAT MIGHT INDICATE CANDIDATES' THINKING

Age 13
Check the land to see which purpose would be better.
See how many industries there are and if there's too much smog, and ask the people to see if kids need the park or get industry to progress ahead.

Age 17
Find out what is most helpful either to keep kids off the street or industry.
I guess find out what industry they were going to put on the land, if it was a needed industry for the community.

Adults
Check what it would mean to the community as a tax relief.

Categories and sample responses are listed below.

### 13 = ATTENDS MEETINGS, SPEECHES AND DEBATES (PASSIVE)

All ages
Listen to a speech or talk they gave.
Listen to him speak on radio, TV or through the news media.
You could go and hear them speak at campaign parties.
Listen to his speeches and read his campaign literature.
Attend campaign rallys and meetings.

### 14 = OBTAINS INFORMATION FROM MEDIA AND CAMPAIGN MATERIALS

All ages
Read their booklets and other literature.
Contact his headquarters.
Go to a newspaper where they've done research on both candidates and find out that way.
Read the papers and on T.V. different editorials.
Check at campaign headquarters.

### 15 = OTHER ACCEPTABLE RESPONSES

Age 13
Ask your friends for opinions.
Look at the surroundings, see which I would want, see why they think by putting myself in their places.

Age 17
Go to the city hall and find out.
Get different opinions from other people and see if they've talked to the candidates.

Adults
No samples given.

### 20 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13
The one who wants the park is a good idea. This will give them some place to go and keep them off the streets.
I'm against this because the industry would make air pollution.
One man wants to make a good impression on kids.
Go to the Almanac and look it up.

Age 17
They don't need no park.
Well, I would say, the one making for the the park, he trying to build this nation and he making the park to keep kids out of trouble.

Adults
How were they raised--one would think play more important, the other income more important.

### 29 = I DON'T KNOW

26 and 35.[1] Within the four age levels, National Assessment can report data about a limited number of subpopulations. Although the sample included respondents from all 50 states and the District of Columbia, it was not of sufficient size to enable comparisons of the data between states, school districts, schools, teachers, etc.

The sample design employed by National Assessment was stratified by geographic region, state, size of community and socioeconomic level. The sample was drawn at three stages. The first-stage sampling units consisted of counties or groups of contiguous counties and was constructed using U.S. Census data on the numbers of persons living in those counties.

For the in-school assessment, a stratified random sample of primary sampling units (PSUs) was drawn. Lists were made of the schools in each selected unit. At the second stage, a sample of schools was selected within each PSU. Finally, within each selected school NAEP drew a random sample of students and assigned those students to assessment booklets. Of course, all student listings were destroyed to protect the anonymity of the respondents. National Assessment has no records of the names of the students who took the booklets. The out-of-school sample design was similar to the in-school design. First, primary sampling units were drawn. Then within each PSU a sample of small-area segments was obtained. Specially trained administrators located assessment participants within the area segments by visiting each housing unit and determining if any individuals of the appropriate age lived there. Of the eligible individuals, 84% participated in the social studies assessment.

About 90,000 respondents were sampled in the 1971-72 assessment. However, not all respondents took all exercises. For example, 25,500 13-year-olds participated in the social studies assessment. Between 2,200-2,700 13-year-olds responded to each booklet of exercises.

---

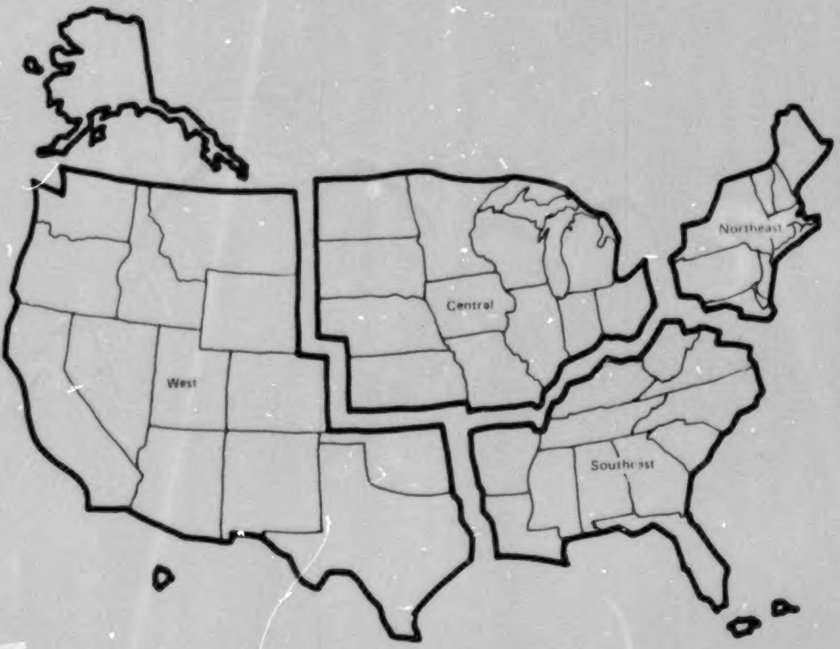
[1] An overview of the National Assessment sampling design for Years 03 and 04 is provided in Chapter 2 of the *General Information Yearbook, Report 03/04-GIY* (Washington, D.C.: Government Printing Office, 1974). For more detailed documentation, see J.R. Chromy et al., *The National Assessment Approach to Sampling* (Denver, Colo.: Education Commission of the States, 1974). For an introductory treatment aimed at state and local assessment problems, see R.M. Jaeger, *A Primer on Sampling for Statewide Assessment* (Princeton, N.J.: Educational Testing Service, Center for Statewide Educational Assessment, 1973).

## Reporting Populations and Subpopulations

In addition to national results for 9-year-olds, 13-year-olds, 17-year-olds and young adults, National Assessment provides data about various groups of people. The variables used for this analysis are region of the country, sex, race, level of parental education and size and type of community and are fully explained in the *General Information Yearbook.* They are briefly described as follows.

### Region

The country has been divided into four regions -- Northeast, Southeast, Central and West -- in order to present results for various regions relative to the national results.



### Sex

Results are presented for males and for females.

## Race

Results are presented for whites and blacks.

## Parental Education

The four parental-education categories are defined by the highest level of education attained by either of a person's parents. The no-high-school category (No HS) is comprised of all people who indicated that neither parent went to high school. The some-high-school category (Some HS) consists of all those who indicated that the parent with the most education attended high school but did not graduate. In the graduated-from-high-school category (Grad HS) are all those who indicated that at least one parent graduated from high school, and in the post-high-school group (Post HS) are all those who indicated that at least one parent received some post-high school education (college, vocational training or adult education courses).

## Size and Type of Community (STOC)

The groups within this variable are defined by the size of a person's community and an occupational profile of the area his or her school serves.

*Low metro.* Individuals in this group attend schools within the city limits or residential area served by a city with a population greater than 150,000; the schools serve areas in which a high proportion of the residents are on welfare or not regularly employed.

*Extreme rural.* People in this group attend schools in a community having a population less than about 8,000. Most residents in the area the school serves are farmers or farm workers.

*Small places.* People in this group attend schools in a community of less than 25,000 inhabitants that are not included in the extreme-rural group.

*Medium city.* Individuals in this group are those who attend schools in cities with populations between 25,000 and 200,000 that are not in high- or low-metro groups.

*Main big city.* These are students attending schools in a big city (population greater than 200,000) who are not included in either the low-metro or high-metro groups.

*Urban fringe.* People in this group attend schools in the metropolitan area served by a city with more than 200,000 inhabitants; the school and the area it serves are outside of the city limits and are not included in either the low-metro or high-metro group.

*High metro.* Individuals in this group attend schools within the city limits or residential area served by a city with a population greater than 150,000; the area served by the school consists primarily of residents who are professional or managerial personnel.

## Computation of P-Values and Standard Errors

The choice of algorithms for estimating p-values (proportions) and estimates of their standard errors is heavily dependent on the sample design. To estimate the percentages of individuals in the population who possessed various knowledges, understandings, skills and attitudes, National Assessment weighted all response data in accordance with the sample design.

The following types of results are provided for each exercise.

1. *P-Value.* An estimate of the percentage of persons in each of the populations who gave a certain response to a specific exercise. For example, the estimated percentage of 9-year-olds who answered a given exercise acceptably is defined as the weighted number of acceptable responses divided by the weighted number of responses for all 9-year-olds. Percentages for each reporting group were computed in the same manner using only the weighted responses for the people in that group.

2. *Delta-P.* An estimate of the differences between the performance of a subpopulation and the performance of the total age population. A delta-p is the difference between the estimated percentage of a group (for example, the Western region) that provided a particular response to an exercise and the corresponding national percentage:

   Western % - National % = Western Delta-P.

   If, on a given exercise, a group's percentage is lower than the national percentage, the difference between the two percentages is expressed as a negative number; if a group's percentage of success is higher than the national percentage, the group's difference in performance is a positive number. For example, if on a given exercise 74% of the 13-year-olds in the West gave an acceptable response, but only 68% of the national sample did so, then the West group delta-p for 13-year-olds would be +6 percentage points.

3. *Standard Error.* The Year 03 NAEP sample design provides no known standard-error estimator that is unbiased, simple and inexpensive to compute. A reasonably good approximation to standard-error estimates of p-values may be obtained by applying the jackknife algorithm to first-stage sampling units within strata, using the method of successive differences and pooling across strata.

Let

$\hat{Y}_{ijhk}$ = Sum of weights for respondents in subgroup i (e.g., Northeast, males or low metro) who chose response category j (e.g., correct foil) in PSU k of stratum h (h = first three digits of PSU number, k = last digit of PSU number).

$\hat{M}_{i.hk}$ = Sum of weights for respondents in subgroup i of PSU k of stratum h. Note that $M_{i.hk} = \sum_{j} Y_{ijhk}$.

Then

$\hat{Y}_{ij..} = \sum_{h=1}^{H} \sum_{k=1}^{n_h} \hat{Y}_{ijhk}$, the estimated number of respondents in subgroup i who chose response category j

$\hat{M}_{i...} = \sum_{h=1}^{H} \sum_{k=1}^{n_h} \hat{M}_{i.hk}$, the estimated proportion of respondents in subgroup i,

and

$\hat{P}_{ij} = \dfrac{\hat{Y}_{ij..}}{\hat{M}_{i...}}$, the estimated proportion of respondents in subgroup i who chose response category j.

In the above formulas, H = the number of strata and $n_h$ = the number of PSUs in stratum h. Multiplying $p_{ij}$ by 100 yields percentages, called p-values in NAEP terminology. The jackknifed estimate of the standard error of $p_{ij}$ is

$$\hat{s.e.}\ \hat{p}_{ij} = \left[ 1/8 \sum_{h=1}^{H} \sum_{k=1}^{n_h} \left( \frac{\hat{Y}_{ij..} - \hat{Y}_{ijhk} + \hat{Y}_{ijh,k+1}}{\hat{M}_{i...} - \hat{M}_{i.hk} + \hat{M}_{i.h,k+1}} - \frac{\hat{Y}_{ij..} + \hat{Y}_{ijhk}}{\hat{M}_{i...} + \hat{M}_{i.hk}} - \frac{\hat{Y}_{ijh,k+1}}{M_{i.h,k+1}} \right)^2 \right]^{1/2}$$

where, for $k = n_h$

$$\hat{Y}_{ijh,k+1} = \hat{Y}_{ijh,1}$$

and

$$\hat{M}_{i.h,k+1} = \hat{M}_{i.h,1}.$$

In general, the jackknifed standard errors of NAEP data will be larger than the simple random sampling formula $(pq/n)^{\frac{1}{2}}$, reflecting, largely, the loss of precision due to clustor sampling of schools and students.

The project has adopted the convention that if an obtained delta-p is at least twice as large as the estimate of its standard error, then the difference is statistically significant. These differences are indicated in the tables by asterisks (*).

## Explanation of a Data Table Page for an Exercise

The exercise NAEP number and release number (including part suffix numbers for multipart exercises) are printed at the top and bottom of each data table page. For each exercise data are presented for the nation and for the 19 reporting groups. These groups are listed as column headings across the top of each page.

## P-Values

The first level of text describes the exercise or exercise part. Within that part each response category is presented. For example, the first exercise (RSI01) required respondents to write what they felt about the statement "children with black hair and blue eyes are smarter than others." The first response category for which data are presented is "no response," which was coded "00" for the computer analyses. A set of results are presented for 9-year-olds. If the exercise had been administered to other age levels, data would also have been presented for 13-year-olds, 17-year-olds and young adults. At each age level for each response category, the first number printed is the national p-value. For example, the weighted percentage of 9-year-olds in the national sample who did not respond to this exercise is 3.5%.

The response category that contains the total percentage of correct or acceptable responses to the exercise or exercise part has an asterisk attached to the category code. For these categories, the p-values for each reporting group are included, in addition to the national p-value.

## Delta-P's

Delta-p's are printed for each response category, for each of the 19 subpopulations within each age level. The first delta-p printed is for the Southeast region. For example, on Exercise RSI01 the difference between the Southeastern "no response" percentage and the national "no response" percentage is 1.4%. The Southeast delta-p (1.4%) can be added to the national percentage (3.5) to determine the percentage of Southeast 9-year-olds who did not respond (4.9%). The Western region delta-p is 1.1%, the Central region delta-p is -1.2% and Northeastern region delta-p is -1.1%. This indicates that the "no response" rate for 9-year-olds was slightly higher than the nation as a whole for the Southeastern and Western regions and slightly lower for the Central and Northeastern regions.

## Standard Errors

The standard error for each delta-p is an estimate of the variability in the obtained delta-p due to sampling error. If an obtained difference is at least twice as large as the estimate of its standard error, then the delta-p is said to be reliably different from zero. Statistically, this sort of statement has 95% probability of being correct. Such differences are called statistically significant and are indicated by asterisks. For example, on Exercise RSI01 the West, Central and Northeast 9-year-old differences were found to be significantly different than the "no response" rate for the nation as a whole.

The standard errors of the delta-p's provide estimates of the reliability of the national percentage and the respective group percentages obtained from the sample of respondents.

## Results for Unreleased Exercises

Data are included for unreleased exercises. Usually, however, the results are only given for the no response, acceptable or correct response, unacceptable responses grouped together and the "I don't know" response categories. The text for each unreleased exercise describes the exercise's relationship to the social studies objectives and subobjectives.

# CHAPTER 2

## SKILLS THEME

The exercises in this chapter are organized into two basic sections, obtaining information and interpreting information. Most of the exercises included within obtaining information were developed to measure Objectives IA, "Raise Questions and Seek Answers," and IIC, "Obtain Information From a Variety of Sources." The exercises contained in interpreting information were developed to measure several subobjectives dealing with identifying relevant facts and using information to gain explanations and insight.

The exercises in this theme are directed to answer some of the following questions: Are young Americans able to seek answers related to a variety of questions? Can they identify the sources most suitable to solve a particular problem and use standard reference sources to locate information? Do they use basic problem-solving techniques? Can they interpret maps, graphs and tables? Are they able to use nontraditional sources of information to draw conclusions?

Suppose a friend of yours says children with black hair and blue eyes are smarter than others.

A. Tell me what you think about this.

*(If respondent answers "Nothing" OR no response is given in 10 seconds, go to next exercise.*

*If response is given, go to B.)*

B. Why do you feel the way you do?

*(Stop if no response is given in 10 seconds.)*

Release #: RSI01

NAEP #: 205013-1

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.
Objective: V. HAVE A REASONED COMMITMENT TO THE VALUES THAT SUSTAIN A FREE SOCIETY.
Subobjective: B. Believe in the freedoms of the First Amendment and can justify their belief.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

Overlap: 9
Package-Exercise: 07-12
National P-value:
RSI01-01 63.66

Timing: No paced tape was used in this individually administered exercise.

### SCORING GUIDE: PARTS A&B

Categories and sample responses are listed below.

09 = NO RESPONSE

10 = RECOGNIZES THAT GENERALIZATION CANNOT BE SUPPORTED AND CAN TELL WHY, AND STATES THAT DISCRIMINATION IS WRONG

I know some smart people with blond hair and green eyes who make straight A's. I don't think it's nice to say people aren't smart because of the way they look.

11 = RECOGNIZES THAT DISCRIMINATION IS WRONG

No samples given.

12 = RECOGNIZES THAT GENERALIZATION CANNOT BE SUPPORTED AND CAN TELL WHY

I don't think it's true, its just the way people think. Anybody could be smart or not smart, does not depend on what color eye or hair they have.
It's not true. There is a girl in our room who has black eyes and blond hair and she is not smarter than anybody.
It's not your hair and eyes that make you smart, it's the way you think, because everyone is different.
I don't think it's true. Some are smarter than people with black hair and blue eyes.
Its nonesense. It doesn't matter the way you look. What counts is the way you work.
No. All people are the same. I have a friend with black hair and blue eyes and I'm sometimes smarter than she is.

19 = OTHER ACCEPTABLE RESPONSES

No samples given.

Categories and sample responses are listed below.

20 = RECOGNIZES THAT GENERALIZATION CANNOT BE SUPPORTED AND DOESN'T TELL WHY

It wouldn't be true. Because nobody is smarter than other people.
I don't think that this is true. It could be true but I don't think it would be. I don't think God would make them that way.
I wouldn't think it was true. Because it would be a supersition.
That's silly. Because it's not true.
I don't think it's true. Cause I'm happy with my life.
That isn't true. People, some do, it probably isn't true.

21 = DOES NOT DISAGREE WITH THE STATEMENT

Why can't it be that people with blond hair and blue eyes are smarter than others? If people with blond hair and blue eyes are smarter, why can't they be the same?
I'd turn my hair black and my eyes blue. Because I want to be smarter.
If they were and you didn't know how to do something, you could ask them how to do it. If they were smarter and you wanted to be too, then you could practice more.
Sometimes its true. My dad has black hair and blue eyes.
I'd ask them why they think this is true. There might be a reason for him to say this like there was a famous person with black hair and blue eyes who was smart.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES.

I think they're dumb.
I think they should change eyes and be smarter. I don't like people with blue eyes, not very much.
He was brought up right, he is smart and he pays attention. He's smart enough to answer all the questions that people ask him.
They should have the same color so they don't pick at people.
I wouldn't say anything, nobodies perfect.

29 = I DON'T KNOW

EXERCISE: RSI01-01

Suppose a friend of yours says children with black hair and blue eyes are smarter than others. What do you think about this? Why do you feel the way you do?

These are some things that we know about the United States.

Texas is a LARGE state.

Colorado and Kansas are MEDIUM SIZED states.

Massachusetts is a SMALL state.

Using the above information decide which one of the following sentences is true.

● Texas is larger than Colorado.
○ Massachusetts is as large as Kansas.
○ Colorado is smaller than Massachusetts.
○ Kansas and Texas are about the same size.

○ I don't know.

Release #: RSI04

NAEP #: 204020-1

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.

It is true that many people in India do not have enough to eat.

Which one of the following does this fact tell us?

- ○ India is a very large country.
- ○ People in India eat a lot of meat.
- ● Some children in India go to bed hungry.
- ○ Many people in China do not have enough to eat.

- ○ I don't know.

Release #: USI08

NAEP #: 205004-1

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Overlap: 9
Package-Exercise: 01-18
National P-value:
USI08 46.57

Timing: (in seconds)
USI08 Stimulus: 28
USI08 Response: 22

Release #: USI10

NAEP #: 205008-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

```

Read the two statements below and then answer the question which follows them.

1. Freedom of speech is necessary to a democracy.
2. There was no freedom of speech in Nazi Germany.

Which one of the following statements is a logical conclusion to the two statements above?

○ Hitler made very few speeches.

● Nazi Germany was not a democracy.

○ There were no democrats in Nazi Germany.

○ Countries which opposed Nazi Germany had freedom of speech.

○ I don't know.

Release #: RSI11

NAEP #: 205010-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Release #: USI12

NAEP #: 205007-23#

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

| Overlap: | 13 | 17 | Adult |

Read the following statements made by four speakers. You will be asked to tell which speaker bases his opinion on facts rather than on his personal feelings.

**Speaker I:** I think Hunter lost the election because members of his own political party failed to support him. I heard from Walters that the Crash Party decided at a secret meeting not to work for Hunter but to support his opponent, Pallor.

**Speaker II:** I don't think so. Hunter's campaign manager told me that Pallor's workers were buying votes. They were offering the people two dollars each if they would vote for Pallor. That's why Hunter lost.

**Speaker III:** I disagree with both of you. According to a poll taken after the election, 84 percent of the people questioned said they voted for Pallor because he promised to lower taxes. Hunter lost the election largely because of this issue.

**Speaker IV:** It is perfectly obvious that Hunter lost because of his religion. I've heard people all over town whispering that they would never vote for a member of that religion.

Which speaker bases his opinion more on facts than on his personal feelings?

○ Speaker I
○ Speaker II
● Speaker III
○ Speaker IV

○ I don't know.

Release #: USI14

NAEP #: 204011-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

| Overlap: | 13 | 17 | Adult |
|---|---|---|---|
| Package-Exercise: | 07-10 | 03-12 | 01-12 |
| National P-value: | | | |
| USI14 | 79.00 | 92.99 | 90.87 |
| Timing: (in seconds) | | | |
| USI14 Stimulus: | 72 | 72 | 71 |
| USI14 Response: | 7 | 8 | * |
| USI14 Total: | 89 | 90 | * |

*Time not limited by paced tape.

Release #: USI15

NAEP #: 205006-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: E. Detect logical errors, unstated assumptions, and unwarranted assertions; question unsupported generalizations; are aware of the complex nature of social causation and understand that the sequence or relationship does not necessarily imply causation.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Following are four statements based on the results of a research study. Which one of the statements is the MOST precise?

○ If cigarettes were harder to obtain, students would be less likely to smoke.

○ Students with poor grades seem to have certain psychological reactions that lead them to smoke.

● Only one-sixth of students with "A" averages smoked, whereas two-thirds of students with "D" averages smoked.

○ The freshman college student is more likely to smoke if he has poor grades and does not participate in campus activities.

○ I don't know.

Following are four statements based on the results of a research study.  Which one of the statements is the MOST precise?

RESPONSE:  DK     ALT: A4   I don't know.

    DELTA-P                    12.2      1.5    -0.8    -0.1    -0.3     -0.9    0.9      2.8    -0.1     0.2     1.1     0.1    -1.1     3.1    4.2    -1.5    1.5    -1.7    1.1   -5.6*
    STD ERR OF DP                        1.8     1.4     1.4     1.3      0.8    0.8      2.8     0.8     1.3     1.8     1.2     1.7     2.5    3.6     1.1    2.9     2.5    1.9    1.7
    STD ERR OF P                0.9      2.1     1.7     1.7     1.8      1.4    1.0      3.1     0.9     1.6     1.9     1.4     2.0     2.5    3.9     1.2    3.2     2.6    2.0    1.8
```

Some things CAN BE proved to be true or false. Some things CANNOT BE proved to be true or false.

Read each of the statements below and decide whether it can or cannot be proved. If you think it CAN be proved, fill in the oval beside "Can be proved." If you think it CANNOT be proved, fill in the oval beside "Cannot be proved." If you do not know the answer, fill in the oval beside "I don't know." An example is done for you.

Example:

The earth is almost round.

● Can be proved

○ Cannot be proved

○ I don't know.

You would fill in the oval beside "Can be proved" as is shown, because it can be proved that the earth is almost round. Now you do A through E in the same way.

C. People from Mexico are nicer than people from Canada.

○ Can be proved

● Cannot be proved

○ I don't know.

D. One religion is better than another religion.

○ Can be proved

● Cannot be proved

○ I don't know.

Below is a discussion that was held in 1966. As you read it, try to decide what the two speakers primarily disagree about.

**Speaker I** The United States should fight a limited war in Vietnam while seeking a negotiated settlement. Winning of the war in itself won't do any good. The United States must aim instead at seeing that the South Vietnamese have improved education, democratic government, security of life, and then deal with poverty and the lack of medical care. Financial aid, advice, and technological know-how are what are really needed, but we can't make them effective while South Vietnam is being invaded.

**Speaker II** Improving living conditions is a good idea, but our primary job is fighting. The United States can't permit itself to be pushed out of an area where it is committed. If we withdraw, we would be telling that part of the world threatened by Communist aggression that we either cannot or will not maintain our position. All that really matters is our power position in international affairs.

What do the two speakers primarily disagree about?

- ○ What power and poverty mean in international affairs
- ○ Whether the United States is actually capable of controlling South Vietnam by force
- ● The extent to which the United States should be involved in Vietnam and the motives for its involvement
- ○ Whether Communist aggression in Vietnam is worse than a lowered standard of living in the United States
- ○ I don't know.

Release #: RSI18

The American Declaration of Independence states:

> "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed . . ."

Do the following sentences restate ideas expressed in this quotation from the Declaration of Independence?

C. Some rights can never be rightfully taken away.

● Yes

○ No

○ I don't know.

D. Governments get their right to govern from the people.

● Yes

○ No

○ I don't know.

Release #: USI20
RSI20

NAEP #: 405012-238

Theme: SKILLS.
Subtheme: Interpreting information.
Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: E. Understand some of the major historical developments.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

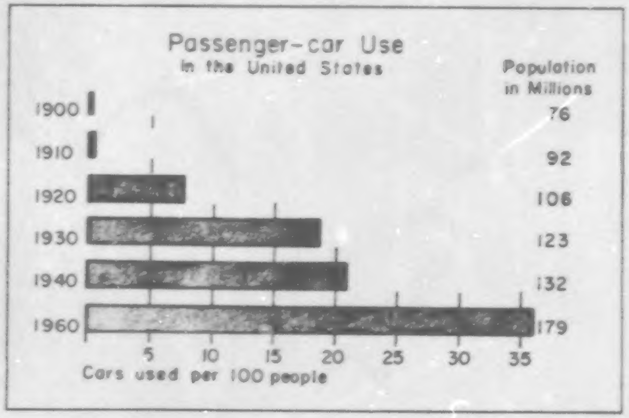
Look at the graph and answer the question below it.



Does this graph show that more money was spent on building and improving the roads in the United States in 1960 than in 1900?

○ Yes

● No

○ I don't know

Release #: RSI21

NAEP #: 203022-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text/Bar Graph

NAEP #: 203027-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text/Graph

According to the graph above, which one of the following statements is TRUE?

○ Russians eat more cabbage than Americans.

○ Russians work more hours per day than Americans.

○ More coffee is grown in Russia than in the United States.

● Russians work approximately 6 times longer to buy a dozen eggs than Americans work.

○ I don't know.

Release #: USI27

NAEP #: 203026-234

Theme: SKILLS.
Subtheme: Interpreting information.
Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text/Table and Map

| Overlap: | 13 | 17 | Adult |

*(Before reading this exercise, give respondent the supplementary package opened to page 7.)*

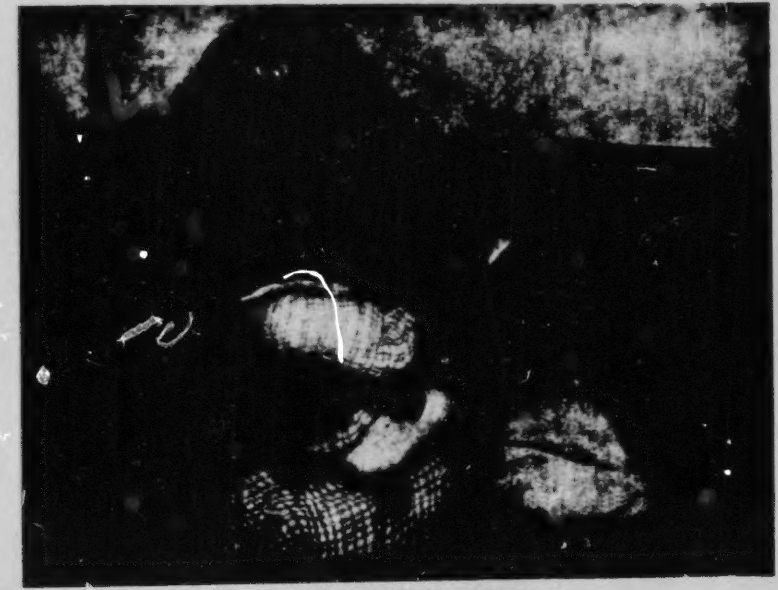
This is a picture of a mother and her children. Look at it carefully and tell me as much as you can about this family.

***(If respondent answers "Nothing" OR no response is given in TWENTY seconds, go to page 19.***

*If respondent gives only literal interpretation of picture such as*
*"There are three people."*
*"They are Mexicans."*
*"They are sitting together."*
*ask, "What do you think the artist wants you to think about this family?"*

*Stop when respondent answers "Nothing" OR no response is given in 10 seconds.)*

(Continued)



**Mother and Children** Diego Rivera

Release #: RSI28

NAEP #: 302012-1234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: III. ARE SENSITIVE TO CREATIVE-INTUITIVE METHODS OF EXPLAINING THE HUMAN CONDITION.

Subobjective: B. Obtain insight into human affairs from history and philosophy, and from fiction and other forms of art.

Exercise Type: Longer answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal/Visual-Picture

SCORING GUIDE

Categories and sample responses are listed below.

99 = NO RESPONSE

10 = RECOGNIZES POVERTY, LOVE AND SADNESS

Age 9 They look sad and poor. The mother and children are happy to be together.

They look poor, but happy. The little girl is glad she has a little playmate to play with. They look pretty nice but pretty poor--nothing in house--pretty sad mother.

They are not very rich. They are very sad. They love each other.

Age 13 They're poor and lonely. They love each other.

Very poor, there is no father. They are sad they don't have any furniture. The mother cares about her children very much. They love each other a lot.

Age 17 They are very poor and lonely. They are worried about where their next meal will come. They live in a different country in a poor area. They love each other and want to look out for each other.

That family's loving, poor. The woman loves the child and daughter. They have a close relation, the mother has a deep sense of gratification. They're lonely. They care for one another. That's the only gift she has in the world--her children.

Reminds me of a poverty family, looks like a picture of India, how times are hard, and starvation, shows the sorrow and the pressures, you can see a lot of strain in the mothers face holding two kids. You can tell by her hands and her face how she works and still shows affection for her children.

Adults I feel that they are poor and fatherless. I feel there is love and tenderness. Its a picture of the East it gives an impression of something sad just happened.

Its a sad picture. They look like they're poor. The mother looks sad for her children. Also looks like they love one another.

They are a close family. The mother looks like she has had a lot of heartaches and pain and the elder child looks like she loves the little one and they look like a close loving family. They show love, and the mother shows hardship but that love in a family conquers all, its more important than poverty.

They have love for one another. They seem to be poor, but sad.

Categories and sample responses are listed below.

11 = RECOGNIZES BOTH POVERTY AND LOVE OR HAPPINESS

Age 9 They are poor. They love each other. They're black. It looks as though they wished they had food. It looks as though they haven't had new clothes for awhile. Looks as though the mother would want food for the children, not for herself.

They're poor. They love each other.

They're poor, cold (cuz they're all bunched together). They love each other very much.

Age 13 I think their father left them and the mother has no money. She is trying to keep them warm and telling them she loves them and that she will stay with them. The mother looks weak physically but stronger at heart. The daughter looks like she understands the problems.

Lot of love in the family, might be poor, may be cold.

Not very wealthy. They love each other. They look like they are Indians in war times.

They are poor. They don't have anything to sit on or anything, they have a close relationship.

Age 17 They're close, a close relationship. It doesn't look like they have too much money.

Poverty stricken. Closeness in family. Old mother, lot of hardships.

Poor, have a hard time, love each other, seem religious.

Looks like a scene from the jungle in Chicago in early 1900's, foreign, poor, no furniture, probably looking for work. One looks oriental, the other Spanish, seem to be strongly attached to each other.

Adults They seem to be very happy even though they are probably living in poverty.

They are foreign perhaps some kind of Mexican or Spanish. The room is closed perhaps with fatigue. Their lives appear to be serious and difficult. There's no father around. The image is largely maternal. The pose suggests that the family is well knit, close to one another.

There is warmth, protection and affection. A true gentle identification between the three figures. Poverty is accepted without question.

---

Categories and sample responses are listed below.

12 = RECOGNIZES POVERTY AND SADNESS

Age 9 They're sad. They don't have a lot of things.

Age 13 Family is poor. Looks like they don't have any food. They are staying close to mother because they will protect her. Looks like baby is going to die because they are hugging it and mother has eyes closed like she is crying. Could have been during war and soldiers were just there.

Look very sad as some tragedy has happened. No father maybe and no one to help them get food since winter is coming.

Age 17 They look very poor. They don't have a very good home life. It looks like something happened to make them really sad, maybe the father died.

They are probably starving. The husband is gone or dead. They are very poor. There is nothing in the room but the blanket rug. I think they are Negroes. They don't look very happy.

13 = RECOGNIZES POVERTY ONLY

Age 9 They are poor and need a home.

Their poor. Because their cold and they have no food. They have no fire to keep them warm, they have only one blanket. And they don't have any sofa to sleep on or anything like that.

They're poor.

Age 13 They are poor; Indian. The artist wants you to think what we've done to them, in case we have driven them off the land.

They must be poor, their house has no furniture.

They're a poor family, Mexican. They probably don't have a father. They probably only have the clothes they have on. They look scared.

Age 17 They are poor. Foreign. They are hungry for food. There's no furniture. It looks like they sleep on the floor.

Poor, cold, hungry mother looks sick, no furniture in the house, most likely, they're going to get evicted.

Adults They are poor and hungry and they need love.

It looks like an Indian family. The mother appears to be older than her actual years--probably a result of a very hard life. They seem to show the effects of poverty by lack of furnishing in house, lack of any objects that show any love or warmth. Over all impression is just pathetic.

Categories and sample responses are listed below.

14 = RECOGNIZES LOVE OR HAPPINESS BUT NOT POVERTY

| | |
|---|---|
| Age 9 | That they love each other. |
| | They love each other very much. They are happy. |
| | His mother care about him and his sister care about him. |
| Age 13 | Family seems to be happy about the newborn baby. |
| Age 17 | Like love and peace between a mother and her kids. The mother seems like she has worries and she's comforting her kids. Like the little girl, her eyes are just shining like she don't have a worry in the world. Like the mother's eyes are closed, she's wondering what tomorrow will bring. |
| Adults | They seem like they're a happy family. Shows the expression of closeness. |

15 = RECOGNIZES SADNESS BUT NOT POVERTY

| | |
|---|---|
| Age 9 | That we should take the food over to them. They are sad. |
| | They're all together--They've lost their dad it looks like--They're not happy. Looks like the mother is crying. |
| Age 13 | Something happened to the father just recently. The family just found out and are in mourning. |
| | Togetherness in grieving. They come together when something tragic happen. |
| Age 17 | Loneliness, sadness, unhappy, maybe they have nowhere to go. |
| | They look sad. The mother is trying to comfort the children because something happened to the father. |
| Adults | No samples given. |

16 = OTHER ACCEPTABLE RESPONSES

| | |
|---|---|
| Age 9 | That they're tha[illegible] for what they have. |
| | Mother is [illegible] to make them feel safe. They are comfortable wit[illegible]eir mother. |
| Age 13 | Some kind of storm came and all the furniture was taken out. The father went to work and they were scared. |
| | They're close together, they act like they're scared or something. |
| Age 17 | Looks like there's a war going on. They're all scared and holding on to one another for security. |
| | Looks like they're praying. |
| Adults | Seemed like the baby is sick by the look on the mother face. She look as if she is praying for better for the future. |

---

Categories and sample responses are listed below.

22 = SEES NO SOCIAL IMPLICATIONS, A LITERAL READING OF THE PAINTING

| | |
|---|---|
| Age 9 | It looks to me like they live in Africa. Well, there's a girl and a baby and a mother. They're sitting on the floor. It looks like their mother is asleep. And they're all close up together. They're sitting on the rug. They have long dresses on. They all have dark hair. The girl's awake. |
| Age 13 | They live in New York. Their names are Bradley Smith. A mother and her children, looks like the husband and father died. They are Negroes. Their clothes were old. |
| Age 17 | They are in some kind of a prison. They aren't starving or anything. |
| | It is a mother and her daughters, they are sitting on a rug in an empty room, they appear to be Indians. |
| Adults | Looked like an Indian family. Maybe they were huddled together because it was cold. |

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

No samples given.

29 = I DON'T KNOW

EXERCISE: RS128-01

This is a painting of a mother and her children. Look at it carefully and tell me as much as you can about the family.

Release #: USI30

NAEP #: 302005-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: III. ARE SENSITIVE TO CREATIVE-INTUITIVE METHODS OF EXPLAINING THE HUMAN CONDITION.
Subobjective: B. Obtain insight into human affairs from history and philosophy, and from fiction and other forms of art.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text/Poem

HERBLOCK

Richest Country In The World

9/8/1953

Release #: RSI31

NAEP #: 302019-234

Theme: SKILLS.
Subtheme: Interpreting information.

Objective: III. ARE SENSITIVE TO CREATIVE-INTUITIVE METHODS OF EXPLAINING THE HUMAN CONDITION.
Subobjective: B. Obtain insight into human affairs from history and philosophy, and from fiction and other forms of art.
Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.

SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = IDENTIFIES CONTRASTS OR RELATIONSHIPS IN CARTOON

Age 13
People are more interested in building factories and making money than in education.
We're the richest country in the world--we've got problems with over-population and crowding, crime and poverty. We're not using the money wisely.
Big cities are rich in material things but often poor in things that count--like education.
It may look rich but it's overcrowded.

Age 17
Our society is drowning in its own affluence. We are reaping harvest of unplanned, illogical industrial growth. Herblock is pointing out the irony of our wealth; it has gotten so out of hand that we are its victims. Also, note the lousy priorities--schools come last.
"Rich" is signifying over population, over crowdedness and technology. Obviously, the situation doesn't depict a rich country; it depicts a nation that has not faced the reality of all the problems it has or will have.

Adults
With all the wealth, no one took time to build schools, which has created overpopulated classrooms.
That there is more money going into buildings, cars, planes, etc, than schools--as the school system is crumbling.

11 = IDENTIFIES MORE THAN ONE OF THE MAJOR POINTS MADE IN THE CARTOON BUT DOES NOT NOTE ANY CONTRASTS OR RELATIONSHIPS

Age 13
Air pollution. Crowded conditions.
Traffic jams. Problems with the schools in that they don't have enough room. Not enough farm land there either.
Over-crowded schools, traffic jams, unclean cities.
What is happening to our city--ruined by population and polution.

Age 17
The overcrowding in the schools, on the highways and in the air.
I think it means that the country used to be full of natural resources and now it is losing all them and the country is over-populated.

Adults
No samples given.

Categories and sample responses are listed below.

12 = IDENTIFIES ONE MAJOR POINT MADE IN CARTOON BUT DOES NOT NOTE ANY CONTRASTS OR RELATIONSHIPS

| | |
|---|---|
| Age 13 | Overpopulation in the schools. |
| | An overflow in the city. The city is too crowded. |
| Age 17 | The school is not modern, over crowded and lack of sufficient supplies. |
| | Not enough time and money are put into the schools. |
| Adults | We need more schools and better ones |
| | Crowded conditions in cities. |

13 = OTHER ACCEPTABLE RESPONSES (NO SAMPLES GIVEN)

20 = FAILED TO NOTE ANYTHING OF IMPORTANCE IN CARTOON

| | |
|---|---|
| Age 13 | School fall down, airplanes are flying. |
| | Cars, school, city stores. |
| Age 17 | The student is going in school building and airplanes are flying above it and tall buildings. |
| Adults | No samples given. |

21 = COMPLETELY MISSED THE POINT OF THE CARTOON OR MADE POINT NOT DEPICTED BY CARTOON

| | |
|---|---|
| Age 13 | They're trying to build houses. |
| | Cars--someone is trying to get to places they want to go. They're blowing their horns. |
| Age 17 | A war is going on. The plane dropped bombs on the school. |
| | To get a good job you need a good education. |
| | Education is taught everywhere. A city with its skyscrapers and traffic jams still demands education. |
| Adults | The idea that all communities need the things displayed in "Richest Country in the World". |

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | The picture is of the richest country in the world. |
| Age 17 | It is portraying the town in the air and in the streets. |
| Adults | Higher education. |

29 = I DON'T KNOW

Please listen carefully to this recording of "Walk A Mile In My Shoes." While listening, try to identify the main idea or message expressed in this recording.

## WALK A MILE IN MY SHOES

If I could be you and you could be me for just one hour,
If we could find a way to get inside each other's mind.
If you could see you through my eyes instead of your ego,
I believe you'd be surprised to see that you'd been blind.

Chorus
Walk A Mile In My Shoes,
Walk A Mile In My Shoes,
And before you abuse, criticize and accuse,
Walk A Mile In My Shoes.

Now your whole world you see around you is just a reflection
And the law of common says you reap just what you sow.
So unless you've lived a life of total perfection
You'd better be careful of every stone that you should throw.

And yet we spend the day throwing stones at one another
'Cause I don't think or wear my hair the same way you do.
Well I may be common people but I'm your brother
And when you strike out and try to hurt me it's a-hurtin' you.

Chorus repeated

There are people on reservations and out in the ghettos
And, brother, there but for the grace of God go you and I.
If I only had the wings of a little angel
Don't you know I'd fly to the top of the mountain and then I'd cry.

Chorus repeated

(Continued)

What is the main idea or message expressed in this recording?

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RECOGNIZED IMPORTANCE OF UNDERSTANDING OTHERS' FEELINGS, ACTIONS, LIFE STYLE

Age 13 It means that before you go and talk about someone you should take their place and feel how they feel and that everyone is different and have their own ways.
This person is a hippy and people don't like him. He says if only they would be him for an hour, they may begin to like him or at least not hate him or begin to understand him.
If you haven't tried it, don't knock it.
That they are brothers and its not hurting him as much as it is hurting others. And if you could be him you would understand how it is to be criticized and accused.

Age 17 I believe that the main idea or message expressed in this recording is one of human nature. It tries to get you to feel and think the way another person would. It says that you don't understand other people because you don't know how they feel.
That people today should put theirselves in somebody elses place before they criticize other people.
Look at people for what they are not for what they look like.
You should try to see another person's point of view before cutting them or condemning them of something.
Accept me as I am. Before you do any talking about "who's better than who", take my place for just a little while. See how there's not much of a difference between me and you. We're all brothers and sisters and in order to live and let live we'll have to try to understand and accept one another.

11 = RECOGNIZED IMPORTANCE OF UNDERSTANDING OTHERS' FEELINGS, ACTIONS, LIFE STYLE - MENTIONS A SPECIFIC GROUP OR "MINORITY GROUP" (USED ONLY FOR AGE 17)

Age 17 Don't criticize somebody if they have long hair or some other physical appearance that you don't like unless you see what they are like. Their personality may be different.

Categories and sample responses are listed below.

20 = DID NOT UNDERSTAND MEANING OF THE SONG, BUT DID SEE SOME SOCIAL IMPLICATIONS (USED ONLY FOR AGE 17)

Age 17 The main idea of this record is that no matter what race or how you dress no one has the right to talk about the way you look or act. Because under your skin we're all brothers.
You should not criticize people unless you are perfect.
That everybody is really in this world together.
Long-haired people should be treated like common people.
When you try to criticize a certain group or kind of people you are really criticizing everyone.
Wake up you imperfect, prejudiced bigot.

21 = REPEATS TITLE OR WORDS IN RECORDING WITHOUT EXPLAINING MEANING

All ages To walk a mile in my shoes.
Before you abuse, criticize, and accuse.
Walking a mile in my shoes.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 That he was trying to get people to walk and stop driving cars and we would have less polatution.
That someone what to go with a person.
Don't disobey the law before you accuse somebody of something.
Don't walk so much in a nice pair of shoes when you have other shoes to wear.
Age 17 That he would walk a mile for a "camel."
That they could be each other in life.
No matter what you're doing, you can always walk away from it.

29 = I DON'T KNOW

```

Please listen carefully to this recording of "Carefully Taught" from South Pacific. While listening, try to identify the main idea or message.

You've got to be taught
To hate and fear
You've got to be taught
From year to year
It's got to be drummed
In your dear little ear
You've got to be carefully taught.
You've got to be taught
To be afraid
Of people whose eyes are oddly made
And people whose skin is a different shade
You've got to be carefully taught.
You've got to be taught before it's too late
Before you are 6 or 7 or 8
To hate all the people
Your relatives hate.
You've got to be carefully taught.
You've got to be carefully taught.

What is the song about?

**Release #:** RSI33

**NAEP #:** 302017-234

**Theme:** SKILLS.
**Subtheme:** Interpreting information.

**Objective:** III. ARE SENSITIVE TO CREATIVE-INTUITIVE METHODS OF EXPLAINING THE HUMAN CONDITION.

**Subobjective:** B. Obtain insight into human affairs from history and philosophy, and from fiction and other forms of art.

**Exercise Type:** Longer answer
**Scoring Type:** Semi-Professional
**Administration Mode:** Group
**Stimulus Type:** Text/Audio-Song

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = REFERENCE TO THE LEARNING OF FEAR, HATRED, PREJUDICE

Age 13 You are not born prejudiced, your parents and friends teach you to be with their actions and words.
It is about stereotyped bigotry--racism and hate are learned feelings. They are not instinctive. A child, separated from other humans, would not be racist.
Any prejudices that we have are really the opinions of our parents that we hear so often, we start to believe them ourselves.
It about people who try to make you hate someone just because they are different.

Age 17 Explaining the prejudice, hate and fear passed down to youngsters from the older generation. Prejudice and hate are learned, not inherited.
The song lashes out at parents and people who try to impose their prejudiced views on young children. The children could probably overlook the differences between them (color, sex, creed) if they were allowed. The older people should really learn from the children.

Adults Discrimination is not something that is a natural instinct. It is taught.
The manner in which racial prejudices are inculcated.
About a number of the sentimental fair-to-middling-liberal cliches Oscar Hammerstein mistook for thought: or hate is not innate.

11 = OTHER ACCEPTABLE RESPONSES--MORALIZES ON THE BASIS OF THE SONG

Age 13 To teach people not to dislike people if they are not white and not to hate people if your relatives hate them.
You shouldn't make fun of people because of race, color, religion or how he talks.
I think its a criticism of people's hatred, it is trying to get people to see how stupid it is.

Age 17 It is sarcasm which makes fun of the way children are taught prejudice. It's main idea is to say that this is wrong.

Adults It means to love one another. Doesn't make any difference because of the color of your skin.
To love your neighbor or peoples of all races and creeds.
In order for there to be equality and no race discrimination, children should be raised in an environment where they learn by every day occurances that all men are created equal.

Categories and sample responses are listed below.

12 = COPIES THE MAIN IDEA OR MESSAGE VERBATIM FROM SONG

All ages You've got to be taught to hate and fear. You've got to be taught from year to year. You've got to be carefully taught.
"You've got to be taught to hate all people your relatives hate."
"You've got to be taught to hate and fear."
That you have to be taught to be afraid of people whose eyes are oddly made and people whose skin is a different shade.

20 = DOES NOT FULLY RECOGNIZE THE MAIN IDEA OR MESSAGE

Age 13 The song is about prejudice.
That the kid has to be taught that he thinks like his relatives and not his own thoughts.

Age 17 It is a song about teaching children to hate people (Negroes, Chinese, etc.) that are different than themselves.
It is about racial prejudice. It is written ironically to view the thoughts of bigots.
Teach to hate people.

Adults Prejudice and discrimination.
Taught to hate.

1 = REVERSES MESSAGE OF SONG OR THINKS THE SONG SHOWS POSITIVE ATTITUDE TOWARD PREJUDICE.

Age 13 This song is about children who should be afraid of peoples eyes or peoples color and you got to be carefully taught.
That you should hate all the people that are different from you.
Telling you how you should be taught to be bad.

Age 17 About someone who has to be taught to hate and to fear. That you have to be afraid of things. To hate everybody your parents hate. But you must be carefully taught on what to do in this world.
The song is teaching a small person to hate people different in color or a person that is different from him. He is being taught to be prejudiced toward everyone his relatives hate. The person is taught not to accept.

Adults No samples given.

Categories and sample responses are listed below.

22 = COPIES PART OF SONG VERBATIM OR ALMOST VERBATIM (DOES NOT COMPLETE MAIN IDEA OR MESSAGE)

Age 13 You've got to be carefully taught.
It says you have to be taught before its too late.
Age 17 The song is about you got to be taught to year to year in your dear little ear you've got to be carefully taught.
Adults Carefully taught to hate and fear.
You've got to be taught before it's too late.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 That us children can't always be brave.
You got to learn.
To be brought up in a nice family and try to follow your parents.
Age 17 You should learn all you can in each year, and stay in a clean group of kids. And so you can be something when you grow up to have a good job.
You've got to be taught about life while your still young, so you'll know the right from the wrong. You've got to know what obsticals you'll encounter.
This song is about watching out for black people.
About the war in the South Pacific in WW II, it seems to portray or make fun of the opposition to the war.
Adults You have to be taught to do everything.
I think it is a song depict how life was years ago: how the feelings were kind of a one train of thought.

29 = I DON'T KNOW

**EXERCISE: RSI33-01**

Please listen carefully to this recording of "Carefully Taught" from South Pacific. While listening, try to identify the main idea or message.

Suppose your class is studying about Peru, a country in South America. A man from Peru is coming to visit the class. What two questions would you want to ask him about his country?

(1) ____________________________________________

____________________________________________

____________________________________________

(2) ____________________________________________

____________________________________________

____________________________________________

*(If respondent answers "Nothing" OR no response is given in 10 seconds, go to next exercise.*

*If respondent pauses after first response ask, "What else would you want to ask him about his country?"*

*Stop after 2 responses OR when respondent answers "Nothing" OR no response is given in 10 seconds.)*

Release #: RS001

NAEP #: 101012-1

Theme: SKILLS.
Subtheme: Obtaining information.
Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: I. HAVE CURIOSITY ABOUT HUMAN AFFAIRS.
Subobjective: A. Raise questions and seek answers.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

Overlap: 9
Package-Exercise: 07-04
National P-value:
RS001-15 68.94

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = QUESTIONS RELATED TO COMMUNICATIONS (WRITING OR SPEAKING)

Do the children speak English?
If their language is different from ours.

11 = QUESTIONS RELATED TO LIFE STYLES OR CUSTOMS

How they get their food.
What kind of clothing do they wear.

12 = QUESTIONS RELATED TO LIVING CONDITIONS (HOUSING, PUBLIC SERVICE)

Are they poor?
What kind of homes they live in.

13 = QUESTIONS RELATED TO EDUCATION

How do they treat the children at school there?
If they have schools like ours?

14 = QUESTIONS RELATED TO RECREATION OR HOBBIES

What type of games they play.
Are there kids to play with?

15 = QUESTIONS RELATED TO GOVERNMENT, HISTORY OR POLITICAL ATTITUDES

If they have many wars.
When was it discovered?
What is the capitol of his country?

---

Categories and sample responses are listed below.

16 = QUESTIONS RELATED TO PHYSICAL CONDITIONS (GEOGRAPHY, POPULATION, WILDLIFE, WEATHER)

What's the climate?
Are there any real big towns?
If it's very hot or cold down there?
How his country look like, how the inside look like?

17 = QUESTIONS RELATED TO OCCUPATIONS, INDUSTRY, ECONOMICS

What does the money look like?
What kind of work he do?
What was their farming like?
If they have metal or steel like we have.

18 = SATISFACTION WITH LIFE IN PERU

How he like his country.
How do you like it there?

19 = OTHER ACCEPTABLE RESPONSES

Is it modern like the U.S.?
If their skin is the same color as ours?
What is it like?

20 = DOES NOT SHOW INTEREST IN COUNTRY OR WAY OF LIFE

Do you have any children?
Where were you born?

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

About how it's running.
What is the strongest animal in Africa?

29 = I DON'T KNOW

**EXERCISE: RS001-01**

Suppose your class is studying about Peru, a country in South America. A man from Peru is coming to visit the class. What two questions would you ask about his country?

RESPONSE: 00 AGE: 9 No response to entire exercise.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

99 = NO RESPONSE

10 = INTEREST IN TOPIC, PER SE

Age 9 It's interesting.
Then I would know more about history in other lands.
They may have a different world. I want to know.
I want to know what kind of food they eat.
Because I like it. Because I never saw them.
It gives me something to read about or think about.
We already know how we live.
It's exciting to learn games and learn how they live.

Age 13 Because I like to learn about how different people live and work, and how their schools are.
I feel sorry for them; I like to know how they talk; some places they don't have food and they die of hunger; their clothes are weird, long skirts in Japan.
Its fun seeing how other people manage and live.
I just like to know about them.
Cause it tells me what the world's about in other countries.
The way they do different things--how they eat and dress.

11 = INTEREST IN COMPARING THEIR COUNTRY OR TIME WITH OURS

Age 9 To see if the land is like our country.
Because I want to see if they live, work and play the same way we do.
I want to know if they play something like we do.

Age 13 I like to have interest in other lands and find out if we have it a lot better than they do.
I like to compare the way they live to the way we live.
I don't know, I guess just to see how other people are different from us.
Because it's interesting to find out how they differ from us.
It's good to know how other people live and the difference in their environment and ours.

Categories and sample responses are listed below.

12 = INTEREST LEADING TO APPLICATION OF KNOWLEDGE

Age 9 If I go there, I would want to know about it.
We could do the thing they do and it could be fun, but for that we've got to learn what they do.
If somebody from another land came down the street and ask me about our country, and then ask me if I know anything about their country and I'll say "Yes."
Because my dad said we were going somewhere in Africa.

Age 13 If we know about other people, then we can learn more about ourselves.
Nice to know so we can help them in other countries or trade with them.
So you can tell other people when they ask you.

13 = OBLIGATION OR NEED TO GET INFORMATION

No samples given.

20 = NOT INTERESTED IN OTHER COUNTRIES

No samples given.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 9 Because some people need jobs and God put them a different way from us.
Just because.

Age 13 No particular reason.

29 = I DON'T KNOW

```

Release #: US004

NAEP #: 101010-12

Theme: SKILLS.
Subtheme: Obtaining information.
Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: I. HAVE CURIOSITY ABOUT HUMAN AFFAIRS.
Subobjective: A. Raise questions and seek answers.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

| | | |

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = DESCRIPTION OF JOB (OR QUESTIONS HE COULD ANSWER AS EXPERT IN THE FIELD)

Age 9 Are all the plans alike?
Is it really hard--every minute does someone come giving him papers?
What mostly do you do in your job?
What does he do to help the people of his town?
Age 13 Is it hard to keep track of all the work you have to do?
Age 17 Are you your own boss?
What is the hardest part of his job?
What are his duties?
How long does he work?
I would ask him if he did his job with justice?
What his duty demands of him?
Adults Is your work hard?

11 = MONETARY ASPECTS, RENUMERATION

Age 9 How much money do you make?
Age 13 How much do you get paid for a murder case?
Age 17 Are his expenses paid when he goes abroad on assignment?
Adults How much do you charge to take a case?

12 = APPLICATION, QUALIFICATIONS, TRAINING

Age 9 How he gets to become one?
How did they train him?
Age 13 How hard is law school and how long does it take to complete it?
Why did you want to be Sheriff?
What do you have to do to qualify for a TV news reporter?
How do people get on T.V.?
How did he become a Mayor in the United States?
Age 17 I would ask him how much training that was required his type of job.
How did he get the job?
Do you have to be skilled?
Adults How many years of study did it take him to become a good experienced lawyer?
Why are the qualifications of being a sheriff so rigid?

---

Categories and sample responses are listed below.

13 = SATISFACTION WITH JOB, LIKING FOR JOB

Age 9 Is his work interesting or real hard or sorta easy?
Is it fun?
Do you like the job? Do you like going around helping other people?
How do you like your work?
[illegible] he ever got tired of it?
Age 13 How much fun is it to chase people when they run a red light?
Is it interesting talking about news?
Do you find it to be an exciting life?
Isn't your work depressing?
Age 17 Does he enjoy his work? Does he find it entertaining?
What ability you need for the job?
I would like to see if they get a personal satisfaction out of reporting crimes and bad news. They never seem to have anything good to say.
Adults Does he like to interview important people and find out some peculiar things about them?

14 = SPECIFIC QUESTION ABOUT NATURE OF JOB, WHICH WOULD USUALLY ONLY APPLY TO ONE TYPE OF PERSON--APPLYING THE JOB

Sheriff
All ages How many people he arrests a day?
TV Newsman
All ages If you get embarrassed in front of the TV set?
What is most important thing he has to keep in mind when he is on air?
If he reports the news as it is or if he changes some of it or doesn't tell it like it is?
If he helps get TV film?
Lawyer
All ages What is the most important case you have ever done and did you succeed in your job?
Do you have your own morals when you work or do you do as your client wants?
Do you ever take any cases that you do not believe, and why or why not?
How do you go about preparing for a case?
Mayor
All ages Why doesn't he have more done for his district?
Does he make decisions for the settlement of a situation or does he make decisions to influence his re-election?

Categories and sample responses are listed below.

15 = QUESTIONS WHICH WOULD BE ASKED OF A PERSON BECAUSE HE IS AN EXPERT IN THE FIELD, BUT DOES NOT DIRECTLY RELATE TO JOB

Sheriff
Age 9 Ask him to tell me all the laws.
Is there any crimes lately?
Age 17 What is the main reason for so many crimes and what does he think would be the best thing to help?
Do you think crimes will ever diminish in number?
Why is there so much emphasis on petty crimes or civil disobedience rather than major crimes in small towns?
Adults What is being done about the slums, drugs and delinquency in the area?
City Planner
Age 17 Does it cost as much as they say to run a city?
Why all towns don't have some type of recreation for young people?
How is the city going to be changed in the future?
How we would go about getting new roads in our town?
Labor Leader
Age 17 Is organized crime involved in labor as much as is implicated?
What are the current working conditions?
What does it take to get what you want without violence?
Lawyer
Age 17 What rights the schools really have over students?
Why teenagers are forced to pay higher auto insurance even though you don't have a wreck?
TV Newsman
Age 17 If he had been in various war zones, I would ask him about warfare and his true feelings toward it.

20 = ANY RESPONSE TO B WHEN NONE SELECTED TO A

All ages None of the subject areas above are appealing.
I would like to talk to President of the United States. I would ask, "Are you helping our country or just keeping people satisfied for now?"
I don't care. I wish with all but it is impossible.

Categories and sample responses are listed below.

21 = QUESTIONS NOT RELATED TO THE WORK BEING DONE BY THE PERSON SELECTED

City Planner
Age 9 Why doesn't he get a plane and spray poison to kill bugs in tomatoes?
Adults How would I go about getting in on bidding for some of the lock work?
Labor Leader
Age 9 What does he ask criminals?
Age 17 I would ask him if he had an opening I could fill?
Sheriff
Age 9 Where do you come from?
Age 17 How do you feel about different races of people?
TV Newsman
Age 9 If he had a wife and kids?
How he makes cartoons and that?
If I could be on TV with him?
Age 13 Why do you sometimes start laughing at the beginning?
How do they make T.V.?
Lawyer
Age 13 When he sentences a person, do other people put him down?
Age 17 How is the situation of our country economically and politically?

22 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 9 Could you help me?
I want to be a police girl when I grow up.
Age 13 If its over five dollars forget it.
I will ask him.
What does your wife say?
Age 17 The freeways are too small.
Where are you?
Adults I would like to ask a particular T.V. newsman why he don't shut up. That would be the biggest service he could perform for his country.

23 = I DON'T KNOW

EXERCISE: RS005-21

Which ONE of the following people would you MOST want to talk to?

Suppose there are two men running for mayor in your town. One candidate thinks a large area of land in your community should be made into a public park, and the other candidate thinks the land should be used for industry.

A. Tell me two things you could do to find out why each candidate thinks as he does.

NAEP #: 101020-234

Theme: SKILLS.
Subtheme: Obtaining information.
Theme: KNOWLEDGE.
Subtheme: Political science.

Objective: I. HAVE CURIOSITY ABOUT HUMAN AFFAIRS.
Subobjective: A. Raise questions and seek answers.
Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

| Overlap: | 13 | 17 | Adult |
|---|---|---|---|
| Package-Exercise: | 09-10 | 12-04 | 06-02 |
| National P-value: | | | |
| RS006A10 | 42.10 | 62.18 | 68.86 |
| US006B01 | 69.65 | 75.13 | 76.15 |

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE: PART A

Categories and sample responses are listed below.

99 = NO RESPONSE

10 = QUESTIONS CANDIDATE (ACTIVE)

All ages Interview them.
Talk to them and let them tell you what they think. Find out what they like.
Ask him why he wanted a public park.
Get a group together and try to communicate with him.
I could try to make an appointment with them.
Write a letter and ask for a reply.
Call and ask their opinion about things.

11 = RESEARCHES CANDIDATES' BACKGROUNDS OR ATTITUDES

Age 13 Talk to someone real close to them, a running mate or someone.
Age 17 Look into their past.
Go check on his records. Go down to the administration and find out about him.
Ask someone who's in office with him.
By looking up their background history.
Find out where the candidate lives to see if perhaps this might influence his decision.
Adults Talk to other people in the neighborhood he lives in to find what he's really going after.
Find out if either of them has any financial interest or stands to profit.
Who is backing each campaign.

12 = RESEARCHES USE OF LAND OR NEEDS OF COMMUNITY THAT MIGHT INDICATE CANDIDATES' THINKING

Age 13 Check the land to see which purpose would be better.
See how many industries there are and if there's too much smog, and ask the people to see if kids need the park or get industry to progress ahead.
Age 17 Find out what is most helpful either to keep kids off the street or industry.
I guess find out what industry they were going to put on the land, if it was a needed industry for the community.
Adults Check what it would mean to the community as a tax relief.

---

Categories and sample responses are listed below.

13 = ATTENDS MEETINGS, SPEECHES AND DEBATES (PASSIVE)

All ages Listen to a speech or talk they gave.
Listen to him speak on radio, TV or through the news media.
You could go and hear them speak at campaign parties.
Listen to his speeches and read his campaign literature.
Attend campaign rallys and meetings.

14 = OBTAINS INFORMATION FROM MEDIA AND CAMPAIGN MATERIALS

All ages Read their booklets and other literature.
Contact his headquarters.
Go to a newspaper where they've done research on both candidates and find out that way.
Read the papers and on T.V. different editorials.
Check at campaign headquarters.

15 = OTHER ACCEPTABLE RESPONSES

Age 13 Ask your friends for opinions.
Look at the surroundings, see which I would want, see way they think by putting myself in their places.
Age 17 Go to the city hall and find out.
Get different opinions from other people and see if they've talked to the candidates.
Adults No samples given.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 The one who wants the park is a good idea. This will give them some place to go and keep them off the streets.
I'm against this because the industry would make air pollution.
One man wants to make a good impression on kids.
Go to the Almanac and look it up.
Age 17 They don't need no park.
Well, I would say, the one making for the the park, he trying to build this nation and he making the park to keep kids out of trouble.
Adults How were they raised--one would think play more important, the other income more important.

29 = I DON'T KNOW

EXERCISE: R5006A01

One candidate for mayor thinks an area of land in the community should be a park, the other it should be used for industry. Tell two ways to find out why each thinks as he does.

RESPONSE: 00   AGE: 13   No response to entire exercise.

A. What do you think are three important problems generally facing large cities in the United States?

(1) ____________________________________________

____________________________________________

(2) ____________________________________________

____________________________________________

(3) ____________________________________________

____________________________________________

*(If respondent answers "None" OR no response is given in 10 seconds, go to next exercise.*

*If respondent pauses before 3 problems are given ask, "Are there any other problems you can think of?"*

*Stop after 3 responses OR when respondent answers "No" OR no response is given in 10 seconds.)*

*(Go to B)*

B. Which one of the problems you named would you MOST want to ask questions about?

- ○ *Problem 1 (Go to C)*
- ○ *Problem 2 (Go to C)*
- ○ *Problem 3 (Go to C)*
- ○ *Any other response (Go to next exercise)*
- ○ *No response (After 10 seconds, go to next exercise)*

(Continued)

C. What two questions would you ask about this problem to find out more about it? *(This refers to the problem respondent mentions in part B.)*

(1) ____________________________________________

____________________________________________

____________________________________________

(2) ____________________________________________

____________________________________________

____________________________________________

*(If respondent answers "None" OR no response is given in 10 seconds, go to D.*

*If respondent pauses before 2 questions are given ask, "Is there anything else you would ask to find out more about this problem?"*

*Stop after 2 questions OR when respondent answers "No" OR no response is given in 10 seconds.)*

*(Go to D)*

D. Name two sources that would help you learn more about the problem you most want to ask questions about.

(1) ____________________________________________

____________________________________________

(2) ____________________________________________

____________________________________________

*(If respondent answers "None" OR no response is given in 10 seconds, go to next exercise.*

*If respondent pauses after first response ask, "Can you name another source?"*

*Stop after 2 responses OR when respondent answers "No" OR no response is given in 10 seconds.*

*If respondent gives only 1 source, go to next exercise.*

*If respondent gives 2 sources, go to E.)*

(Continued)

E. Name as many additional sources as you can that would help you learn more about the problem you MOST want to ask questions about.

Release #: RS007

NAEP #: 101002-234

Theme: SKILLS.
Subtheme: Obtaining information.
Theme: KNOWLEDGE.
Subtheme: History.

Objective: I. HAVE CURIOSITY ABOUT HUMAN AFFAIRS.
Subobjective: A. Raise questions and seek answers.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

| Overlap: | 13 | 17 | Adult |
|---|---|---|---|
| Package-Exercise: | 10-03 | 11-11 | 02-02 |
| National P-value: | | | |
| RS007-44 | 37.93 | 58.77 | 66.14 |

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE: PART A

Categories and sample responses are listed below.

200 = NO RESPONSE

101 = POLLUTION

Age 13 Noise.
Air pollution.
Pollution--smog.
Water pollution.
Pollution all over.
Age 17 Ecology.
Adults Pollution and problems of industrial pollution.
Waste disposal.

102 = OVERPOPULATION; LACK OF HOUSING

Age 13 Overcrowded population.
Population--too many people.
Need more houses.
Age 17 Overcrowding.
Population increase.
Growing too fast (over-population).
Adults Crowded conditions in inner city.
People living too close together--not enough space.
Not enough housing.

103 = POVERTY AND POOR HOUSING

Age 13 Poverty.
Housing--better homes for people in the slums.
Age 17 Slums.
Ghetto problems--housing--feeding people.
Money for the poor.
Poverty and slums.
A lot of people still live in shacks and places that are fixing to fall apart.
Poorness.
Inner city--slum areas.
Adults Ghetto.
Slum and poverty areas.
Poor housing crowded areas.

---

Categories and sample responses are listed below.

104 = INTERGROUP RELATIONS

Age 13 Racial differences.
Age 17 Racism.
Arguments between younger and older people.
Segregation.
Acceptance of integration.
Everyone is thinking they are better than everybody else.
Adults Racial strife.
Racial problems between black and white.
Discrimination.
Busing.

105 = CRIME

Age 13 Lots of killing.
Vandalism.
Crime rate has increased.
Halloween--putting dangerous objects in the treats.
Robberies.
Age 17 Juvenile delinquency.
Adults Improper use of certain laws.
Coping with spreading crime situation.
Crime is very big especially because of drugs.

106 = SOCIAL DISORDERS (RIOTS)

No samples given.

107 = ECONOMIC PROBLEMS

Age 13 Strikes.
Not enough jobs.
Age 17 Trying to get a job.
Labor union problems.
Lack of jobs--unemployment.
Prices and costs--taxes.
Low wages.
Economic growth.
Adults Poor financial supervision.
Bad economies--a lot of people out of work.
High cost of living.
Lack of money for development and needed services.
Not enough money coming back to the city from the federal government.
A lot of businesses are moving to the suburbs.

Categories and sample responses are listed below.

108 = TRANSPORTATION

Age 13 Traffic.
Reckless driving.
Age 17 Too many car accidents.
Adults Inability to get from place to place by subway, cars, etc.
Traffic handling.
Drunken drivers.

109 = EDUCATION

All ages Need more schools built.
Overcrowded schools.
Schools--busing and not enough teachers and schools.

110 = GOVERNMENT

Age 13 The way the law should be improved.
Age 17 Official neglect-misrepresentation-unfair representation.
Controversy in government (political problems).
The people that are suppose to be ruling over U.S. problems, mayors and things, they usually don't know what the people want, they just do what they think.
Politics (people not wanting to do a good job).
Adults Decline of city's ability to serve its residents.

111 = HEALTH PROBLEMS

Age 13 Bad water.
Age 17 Food--starvation in ghettos.
Not enough doctors for sick.
Sanitation.
Adults Garbage collection.
Alcoholics.
Proper health care.

112 = DRUGS

Age 13 Dope.
Drugs and how they get smuggled into the United States.
Age 17 Drug abuse.
Drug addiction.
Adults Heroin and Marijuana.

---

Categories and sample responses are listed below.

113 = MORAL CHANGE

Age 13 No respect for law.
Too many bad people.
Age 17 Lack of interest in religion.
Coldness of people to one another.
No trust of people.
Adults No samples given.

114 = NATURAL DISASTERS

No samples given.

115 = OTHER ACCEPTABLE RESPONSES

Age 13 No room for exercise and activities.
Not enough organizations for kids (boy scouts, girl scouts, etc).
Age 17 Not enough land for people to do things--recreation wise.
Kids not having enough to do.
Too much uniformity--apartment houses all look alike.
Adults Fostering growth and development for city's future.
Entertainments for younger people not enough--need parks with supervision.

298 = VAGUE, NONSENSICAL AND OTHER UNACCEPTABLE RESPONSES

Age 13 Social studies.
Accidents.
Work.
Age 17 Anti-war movements.
Don't know all the people personally.
Industry.
Adults The war.

299 = I DON'T KNOW

## SCORING GUIDE: PART C

Categories and sample responses are listed below.

99 = NO RESPONSE

10 = QUESTIONS ABOUT THE NATURE OF THE PROBLEM

Age 13 What causes the most pollution?
Where the drugs first come from?
What effect drugs have on people?
How many people are on dope?
Why aren't the races getting along?
How much of our air is bad?
Why do prices have to be so high and wages so low?
Why do they take drugs? What do they see in it?
Why do they make all the smog?
Age 17 Why it occurs? (Official neglect)
Why do people commit crime?
How has pollution been allowed to get so out of hand?
When you go to the emergency room, why do the doctors go on to the other and leave you?
One good reason why marijuana should be legalized?
Why do people permit crime to happen?
What chemicals are in the air?
What are the weather facts?
Are there enough teaching facilities?
How many people face poverty?
What starts people on drugs?
Why can't they get along together?
What types of crime are there?
Why do educated people treat each other like animals?
What causes the slums?
Are there enough teaching facilities?
Adults Why they drink that much and get on road?
What industries are being cut back?
Is there any wide spread standards as to what constitutes pollution and the forms used to measure it?
How is money being used for the housing projects?
Why must there be a lack of decent housing when it seems the gov't is always collecting taxes to use for this?
Why is the equipment used in transportation so old?
Have a breakdown on where my taxes are going.
Why are the prices so high?
What are the causes of pollution?

Categories and sample responses are listed below.

11 = QUESTIONS ABOUT SOLVING THE PROBLEM

Age 13 How can we help life at home so people won't need drugs?
Can you clean it up?
What are some ways we can help to prevent it?
Age 17 How can it be solved?
What's being done to get addicts off drugs?
Are the existing laws effective, and if not, what would be better legislation?
How to cut traffic down and not hurt industries in cities?
What can I do to help bring the crime rates down?
Why hasn't the government done as much as they could?
Why can't everyone have equal opportunities and make use of them when they get them?
How could law enforcement be made stronger and not as weak as it is now?
How could prison reform be made better?
Why couldn't they spend more money on kids rather than all the money on space and war?
Waste removal--What to do to dispose of it? Landfill?
Adults How to keep them off the road?
Who is going to hire all the G.I.s from Viet Nam?
What future industries are predicted to foster city growth?
What particular type of pollution can be avoided?
How to give more people opportunity to work!
How could we have more training programs to help people?

12 = OTHER ACCEPTABLE RESPONSES

Age 13 Would it be overruled by something else later?
Age 17 How do the people feel about the ways that are being used now to stop pollution?
Adults No samples given.

29 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 Is he very smart?
About the books are they different from any other books?
How the teachers act about you missing a problem?
Age 17 Go to police to ask them to check on people.
Ask neighbors if they would watch my place.
Adults No--because I'm never taken any.

29 = I DON'T KNOW

## SCORING GUIDE: PARTS DEF

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = NEWSPAPERS AND MAGAZINES

All ages Library--magazine section.
Articles in papers and magazines.
Everyday magazines and newspapers have article about it.
Read newspapers.

11 = RADIO, TV AND FILMS

All ages TV commercials.
TV, radio.
News media, TV.
Films at school.

12 = BOOKS, LIBRARY

All ages Facts in the library.
Reference books.
Library books, encyclopedia.
Read a book about crime.

13 = GOVERNMENT OFFICIALS, WORKERS OR AGENCIES

Age 13 Police.
Department of Health.
Going to the government and asking about it.
City Hall.
Age 17 The mayor.
Juvenile Detention headquarters.
Dept. of Interior.
Federal government.
State government.
Talk to the environmental boards.
A politician, like a congressman.
Adults City Commission.
Wild life commission.
Food and Drug Administration.
Dept. of Health, Education, Welfare.
I could attend some city council meetings.

---

Categories and sample responses are listed below.

14 = GOVERNMENT LITERATURE

Age 13 No samples given.
Age 17 Pamphlets from Washington.
Government pamphlets (Write off for them--the State Dept. of Agriculture).
Adults U.S. government of figures or projections.
Reading on government studies on these problems.

15 = DIRECT OBSERVATION OR TALK TO PERSON INVOLVED IN PROBLEM

All ages I guess I'd go to someone on the drugs to ask them their opinion.
Factories that produce pollution.
Going to nearby lakes and streams and try to help clean them up.
People involved in the riots.
Go to the ghettos to see how they live.
People that commit crimes.
Going to a school that's integrated.

16 = AUTHORITIES (TEACHERS, DOCTORS, SCIENTISTS)

Age 13 Doctors.
A good pharmacist.
A scientist.
Age 17 From a sociologist.
Ecology professors.
Superintendent of schools.
Go to sanitation companies.
Adults The works of specialists and urbanologists.
Reports from water re-cycling plant.

17 = SPECIAL INTEREST GROUPS

Age 13 Visiting places that help fight air pollution.
YMCA--Church.
Age 17 Wildlife federation.
Conservation people.
Family Parenthood Association.
Adults Labor Unions of each state.
Organizations specializing in working to curb pollution.
Drug clearing house.

Categories and sample responses are listed below.

19 = OTHER ACCEPTABLE RESPONSES

All ages Business owners.
Psychological reports on what causes crime.
Church.
Sociology class in school.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 See what parents think about it.
A grown-up who lives in a big city.
Go to the office.
Ask around (some people) no one in particular.
Age 17 Write to individuals concerned.
People.
A close friend.
Listening to people.
Adults Dept. that's supposed to be in charge of all this.
Children of today seem to know quite a bit and are concerned.

29 = I DON'T KNOW

EXERCISE: RS007-01

What do you think are three important problems generally facing large cities in the United States?

| | NATION | REGION | | | | SEX | | RACE | | PARENTAL EDUCATION | | | | SIZE-AND-TYPE OF COMMUNITY | | | | | | |

We can find information by using:

A dictionary
An encyclopedia
A globe
A map
A newspaper

Suppose you had all of these in your room. Which would be BEST to use to find the things asked below?

A. Which one of the following would be BEST to use to find how to a spell a word?

- ● A dictionary
- ○ An encyclopedia
- ○ A globe
- ○ A map
- ○ A newspaper

- ○ I don't know.

(Continued)

D. Which one of the following would be BEST to use to find information about the history of Mexico?

- ○ A dictionary
- ● An encyclopedia
- ○ A globe
- ○ A map
- ○ A newspaper

- ○ I don't know.

Release #: RS008
US008

NAEP #: 203002-1

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Overlap: 9
Package-Exercise: 02-22
National P-value:

**Fill in the oval beside "Yes" if the book or thing listed below would probably give you information about the early settlement of your state. Fill in the oval beside "No" if it probably would not give you information. If you do not know the answer, fill in the oval beside "I don't know."**

**A. Would a DICTIONARY give you information about the early settlement of your state?**

○ Yes

● No

○ I don't know.

**B. Would an ENCYCLOPEDIA give you information about the early settlement of your state?**

● Yes

○ No

○ I don't know.

```
Release #:        RS009
                  US009

NAEP #:           203030-1

Theme:                SKILLS.
Subtheme:             Obtaining information.

Objective:       II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective:     C. Obtain information from a variety of sources.
Subobjective:     D. Distinguish facts from opinions, relevant from
                     irrelevant information, and reliable from
                     unreliable sources.

Exercise Type:          Multiple choice
Scoring Type:           Machine
Administration Mode:    Group
Stimulus Type:          Text

Overlap:                        __9__

A boy looked in his history book, but he could not find out where Abraham Lincoln was born. Which one of the following should he do?

○ Look in an atlas
● Look in an encyclopedia
○ Look in a geography book
○ Ask a friend to help him

○ I don't know.

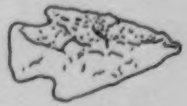
*(Before reading this exercise, give respondent the supplementary package opened to page 12.)*

Pablo found an arrowhead in his backyard. It was shaped like the arrowhead in the picture you are looking at.



Pablo was interested in finding out who made the arrowhead, when it might have been made, and what it could have been used for. How could he find out?

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

Overlap: 9
Package-Exercise: 07-02
National P-value:
RS013-11 78.51

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RECOGNIZED AUTHORITIES (PEOPLE) FOR CHILD

Take it to a museum, ask someone there they know about fossils and stuff at museums.
Go to library lady and ask.
Go to a lab and ask a scientist.
From the Indians.
Ask my teacher.
He'd go to a rock expert. I can't think of the name.
Go ask his teacher where he could find people who could tell him about it.

11 = OTHER POSSIBLE PERSONAL SOURCES

He could ask around his neighbors to see who made it.
Ask me I know a lot about them I have books on them.
Get his dad to tell him.
Ask my mother.
Ask my parents about it.

12 = MUSEUMS OR RELEVANT INSTITUTIONS

Take it to a museum.
Go to a museum about Indians.
A museum.

13 = SPECIFIC WRITTEN OR PICTORIAL SOURCES

Look in a book on arrowheads, look for the book in a library or maybe in a school.
Look in encyclopedia.
Find it in dictionary - little bit.
A movie on arrowheads in school.
By a social studies book.
Look in a science book.
Look in some Indian History books.
He could look it up in the encyclopedia to see about how the Indians made them.
Go to the library and ask the librarian for books on Indian artifacts.

---

Categories and sample responses are listed below.

14 = GENERAL WRITTEN OR PICTORIAL SOURCES

Maybe a book from the library could help him.
Ask people - get a book and find out.
Try to get a book about it and figure it out by himself.

15 = OTHER ACCEPTABLE RESPONSES

He could look on the back of it to see if it has the name of the place on it where it was made.
Take it to a laboratory.

21 = IRRELEVANT SOURCES OR METHODS

Look on it for a date.
Take it to the police and ask them.
Take it to the mayor and ask him.
Take it to a psychiatrist and ask him about it.
It usually tells how they were used in story books.
Take it to a friend.

28 = VAGUE, NONSENSICAL AND OTHER UNACCEPTABLE RESPONSES

Go to India where they might make them.
He could ask my grandfather he has a whole collection, only he died.
Ask somebody.
Take some wild guesses.
Find the person who shot it - ask them about it.
Take it to a shop.
He might know himself.

29 = I DON'T KNOW

**EXERCISE: RS013-01**

Pablo found an arrowhead. He was interested in finding out who made it, when it was made, and what it was used for. How could he find out? Stop after three responses.

Suppose someone wanted to know what had happened in our country or in the world within the last 24 hours. Would each of the following be a good way for that person to find out?

C. Would reading the daily newspaper be a good way to find out what had happened in the last 24 hours?

● Yes
○ No

○ I don't know.

D. Would looking in an encyclopedia be a good way to find out what had happened in the last 24 hours?

○ Yes
● No

○ I don't know.

E. Would watching the news on television be a good way to find out what had happened in the last 24 hours?

● Yes
○ No

○ I don't know.

Release #: US014
RS014

NAEP #: 203038-12

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Release #: US015

NAEP #: 203007-23

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Suppose your teacher has asked all of the students in your class to find out how many people immigrated to this country in 1900. Which one of the following do you think would be the MOST dependable or reliable source for finding out how many people immigrated to the United States in 1900?

○ An article about immigrants in a popular magazine

○ A very old neighbor who immigrated to the United States

○ A fiction story about a young girl who came to this country and who became a citizen

● Immigration dates and figures in a book put out by the United States Census Bureau

○ I don't know.

Release #: RS017

NAEP #: 204009-234

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

| Overlap: | 13 | 17 | Adult |

*(Before reading this exercise, give respondent the supplementary package opened to page 1.)*

A. If you were to receive summaries of two new scientific studies on smoking, one of which was reported by the government and the other by the tobacco industry, which would you read? *(Read ALL choices on the handout to respondent.)*

○ The government report only *(Go to B)*

○ The tobacco industry report only *(Go to B)*

○ Both the government and the tobacco industry reports *(Go to B)*

○ Neither the government nor the tobacco industry report *(Go to B)*

○ *I don't know. (Go to next exercise)*

○ *No response (After TWENTY seconds, go to next exercise)*

B. Please give a reason for your answer.

Release #: RS018

NAEP #: 102001-234

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: I. HAVE CURIOSITY ABOUT HUMAN AFFAIRS.
Subobjective: B. Are open to new information and ideas.

Exercise Type: Longer answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

| Overlap: | 13 | 17 | Adult |
|---|---|---|---|
| Package-Exercise: | 08-01 | 10-01 | 04-01 |
| National P-value: RS018-03 | 64.58 | 77.31 | 79.09 |

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = WOULD READ BOTH--EQUALLY INTERESTING OR EQUALLY BIASED

All ages
To find out about both of them.
Read both sides so you can find out the good and the bad things about it.
To find out what they both have to say about tobacco and if it's harmful to you.
Both would have different ideas in them.
Want to see both side of opinion so I can make a fair judgment about what I should know about cigarettes.
Because I could put them together and evaluate both of them.
You'd get all the information there was to get.
I'd like to see the different argument and both point of views.
Reading one report would give a biased opinion.
Because I smoke and I would just as soon know more about it.

11 = WOULD READ BOTH, BUT HAS PREFERENCE FOR GOVERNMENT REPORT OR FEELS THAT TOBACCO REPORT WOULD BE BIASED

All ages
The tobacco industry might be trying to keep their business and try and slide on some of the bad things about smoking. The government would be more likely to tell you the medical facts.
The tobacco industry might try to put something over and the government might be more honest. I've seen movies where the tobacco doesn't mention any problems.
Because I think it be good to read the one by the tobacco industry but I feel the government report would be a lot more unbiased because the tobacco industry makes money and they would want to make it look as good as possible.
The government has scientific reasons. The tobacco wants to sell more cigarettes.
The government would give you facts and statistics and the tobacco industry would be leaning towards the tobacco industry.
The tobacco industry would only tell you so much and the government would tell you fully.

---

Categories and sample responses are listed below.

12 = WOULD READ BOTH, BUT HAS PREFERENCE FOR TOBACCO REPORT OR FEELS THAT GOVERNMENT REPORT WOULD BE BIASED

All ages
The government might skip something and the tobacco company tell them that the tobacco might be getting better with the tar and nicotine and the government doesn't know about it.
The tobacco industry report might be favoring one thing or the other. Since it's the tobacco industry, they may not put down smoking as much as the government.

20 = WOULD READ GOVERNMENT REPORT ONLY

Age 13
Makes more sense to read it.
Because tobacco might be wrong, you might get cancer from it and the government may tell you not to use it.

Age 17
Because there would probably be more truth in it. The tobacco company might tell some untruths so they can sell the product.
Would show progress or what they found out about smoking. I don't smoke and I don't think I will ever start smoking. I think it is bad on your health, too.

Adults
The government is interested in the individual and the tobacco company is interested in selling the product.

21 = WOULD READ TOBACCO REPORT ONLY

Age 13
They should know more about it than the mayor.
It knows more about it than the government.

Age 17
It doesn't matter what the government thinks and says.
The government in lot is one-sided.
I think the government would be more statistical and I wouldn't be interested in statistics. I'd want to read what the producers themselves thought of their product, and why they sold it to people if they know it's harmful.
I think I'd read the tobacco industry because I smoke and I'm mostly interested in getting the best brand.

Adults
I like to read their propaganda.
To see what they have to say. Their reasoning wouldn't apt to be as honest as the government's should.

Categories and sample responses are listed below.

22 = WOULD READ NEITHER REPORT

| | |
|---|---|
| Age 13 | Smoking is bad for your health.<br>Neither of my parents smoke and I wouldn't be bothered.<br>Not interested. |
| Age 17 | I don't smoke.<br>I'd rather read reports by doctors. The government and tobacco industry don't know much about it. |
| Adults | I gave up smoking for the kinds of considerations that such studies would deal with.<br>I don't believe what neither say. I don't believe what they say. |

23 = WOULD READ BOTH--UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | That's what it talks about.<br>Might tell you something about what's in a cigarette.<br>Both, because its bad for smoking.<br>Because you need the material for both. For money.<br>Because they both say not to smoke. |
| Age 17 | If I received them I would read them.<br>Well, before you smoke you need tobacco so you need to know how they get it and everything. |
| Adults | No samples given. |

29 = I DON'T KNOW

EXERCISE: RS018-01

If you were to receive summaries of two new scientific studies on smoking, one reported by the government and the other by the tobacco industry, which would you read?

## TABLE OF CONTENTS

Introduction . . . iii

IN THE CITY

Who lives in a city? . . . 2
The stores . . . 3
Let's go to the library . . . 5
The park . . . 6
Five-thirty traffic . . . 8
Streets and bridges . . . 11
How a city gets water . . . 15
City helpers . . . 17

ON THE FARM

Who lives on a farm? . . . 28
Farm animals . . . 29
Growing food . . . 33
Playing in the forest . . . 38
The school bus . . . 40
Let's go for a swim . . . 45
A fire! . . . 47
Farm helpers . . . 51

*(Before reading this exercise, give respondent the supplementary package opened to page 1.)*

Use the Table of Contents I have given you to answer these questions.

A. On what page would you look to find out about firemen in the city?

________________

*(After response OR if no response is given in THIRTY seconds, go to B.)*

D. On what page would you look to find out whether farms still have horses?

________________

*(Stop if no response is given in THIRTY seconds.)*

Release #: RS019
US019

NAEP #: 203036-1

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.
Subobjective: D. Distinguish facts from opinions, relevant from irrelevant information, and reliable from unreliable sources.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal & Table of Contents

Overlap: 9
Package-Exercise: 05-02
National P-value:
RS019A 35.70
US019B 67.40
US019C 79.14
RS019D 73.17

Timing: No paced tape was used in this individually administered exercise.

SCORING GUIDE: PARTS A&D

Categories and sample responses are listed below.

PART A:

0 = NO RESPONSE

1 = ACCEPTABLE RESPONSE: 17

2 = UNACCEPTABLE RESPONSE OR I DON'T KNOW

PART D:

0 = NO RESPONSE

1 = ACCEPTABLE RESPONSE: 29

2 = UNACCEPTABLE RESPONSE OR I DON'T KNOW

NAEP #: 203005-2

Theme: SKILLS.
Subtheme: Obtaining information.

Objective: II. USE ANALYTIC-SCIENTIFIC PROCEDURES EFFECTIVELY.
Subobjective: C. Obtain information from a variety of sources.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Group
Stimulus Type: Text/Index

Suppose you were studying the Civil War in your social studies class and you wanted to find the answers to these two questions:

How did Lincoln feel about the South?

How did the South feel about Lincoln?

On the opposite page are four of the cards you might find under LINCOLN, ABRAHAM in the card catalogue in the school library.

Fill in the oval beside the card for the book that would **BEST** help you answer the two questions above.

(Continued)

○

B Brooks, Noah, 1830-1903
LIN Abraham, Lincoln, and the downfall of
American slavery, by Noah Brooks. New York,
G.P. Putnam's Sons, 1894.

1. Lincoln, Abraham, Pres. U.S., 1809-1865.

○

LINCOLN, ABRAHAM, President United States,
1809-1865

B Gore, John Rogers, 1874-
LIN The boyhood of Abraham Lincoln; from the
spoken narratives of Austin Gollaher,
illustrated from photographs. Indianapolis,
Bobbs-Merrill Co., 1921.

1. Lincoln, Abraham, Pres. U.S., 1809-1865.

○

B Leland, Charles Godfrey, 1824-1903
LIN Abraham Lincoln and the abolition of slavery
in the United States, by Charles Godfrey Leland
New York, G.P. Putnam's Sons, 1879.

1. Lincoln, Abraham, Pres. U.S., 1809-1865
2. U.S. History-Civil War.

●

LINCOLN, ABRAHAM, President United States,
1809-1865

B Randall, James Garfield, 1881-
LIN Lincoln and the South, by J.G. Randall.
Baton Rouge, Louisiana State University Press,
1946.

1. Lincoln, Abraham, Pres. U.S., 1809-1865
2. Southern states-politics and government,
1775-1865.

I don't know.

# CHAPTER 3

## KNOWLEDGE THEME

The exercises in the knowledge theme have been organized into four topics: economics, geography, history and political science. All of these exercises were developed to measure success in achieving Objective IV, "Have Knowledge Relevant to the Major Ideas and Concerns of Social Scientists."

Examples of areas that exercises deal with are: historical developments, the influence of physical environments, the political system of the United States and characteristics of economic systems.

Jimmy bought a toy car for $1.50. He had to give the man $1.56. The extra six cents was probably for which one of the following?

○ Interest

● Taxes

○ A tip

○ Wrapping

○ I don't know

Jane went to the store with her mother. Her mother said, "Eggs cost more today than they did last month."

Which one of the following sentences gives a good reason why the eggs cost more today than they did last month?

○ The chickens are laying more eggs.

● The store owner is paying his workers more money.

○ There are more eggs in the store than people can buy.

○ People are not buying as many eggs as they used to buy.

○ I don't know.

Billy went to a department store with his mother. As they went into the store, Billy saw a sign in the store window. The sign looked like this:

BUY NOW

PAY LATER

Which one of the following sentences tells what the sign means?

○ The store is having a sale.

○ Some things in the store are free.

● You can pay at another time for what you buy today.

○ You can trade something you have for something you want.

○ I don't know.

MICROCOPY RESOLUTION TEST CHART

NATIONAL BUREAU OF STANDARDS-1963-A

Economists divide purchases into two groups: producer goods and consumer goods. A farmer buys seed, fertilizer, a tractor and a new coat for his wife.

Which one of the things that the farmer bought is in the group of consumer goods?

- ○ Seed
- ○ Tractor
- ○ Fertilizer
- ● New coat for his wife
- ○ I don't know.

**Release #:** RKE07

**NAEP #:** 403010-234

**Theme:** KNOWLEDGE.
**Subtheme:** Economics.

**Objective:** IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
**Subobjective:** C. Understand some of the major characteristics of economic systems, especially the American economic system.

**Exercise Type:** Multiple choice
**Scoring Type:** Machine
**Administration Mode:** Group
**Stimulus Type:** Text

If the United States government were to stop supporting farm prices and allow agricultural prices to seek their own level, OVER THE LONG RUN which one of the following would MOST likely take place?

○ There would be fewer farmers and agricultural output would fall.

● There would be fewer but larger farms and output would continue to increase.

○ The number of family-size farms would increase and they would be more mechanized.

○ There would be no reduction in the number of farms, but the income of farmers would be lower.

○ I don't know.

Release #: RKE13

NAEP #: 403031-34

Theme: KNOWLEDGE.
Subtheme: Economics.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: C. Understand some of the major characteristics of economic systems, especially the American economic system.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

The European Common Market was formed for which one of the following purposes?

- ○ To unite the former colonies of Great Britain
- ○ To strengthen the economies of underdeveloped countries
- ○ To keep peace in Europe by establishing a common armed force
- ● To establish a pattern for the freer flow of resources among its membership

- ○ I don't know.

Release #: RKE14

NAEP #: 403011-234

Theme: KNOWLEDGE.
Subtheme: Economics.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: C. Understand some of the major characteristics of economic systems, especially the American economic system.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

The following statements describe various economic conditions. For each statement fill in the oval which BEST describes where the stated condition exists. The answer may be the United States only or Russia only or BOTH the United States and Russia.

A. The country is rich in natural resources.

○ United States only
○ Russia only
● Both the United States and Russia

○ I don't know.

D. The organization of industry is based on government ownership and control.

○ United States only
● Russia only
○ Both the United States and Russia

○ I don't know.

Release #: RKE15
UKE15

NAEP #: 403001-234

Theme: KNOWLEDGE.
Subtheme: Economics.
Subtheme: Geography.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: C. Understand some of the major characteristics of economic systems, especially the American economic system.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

A major American manufacturing corporation seeks to establish a branch plant in a country that has rich natural resources but very little industry. The leaders of the nation turn down the American corporation's request.

What reasons can you give for the decision made by the leaders of the foreign nation?

## SCORING GUIDE

Categories and sample responses are listed below.

000 = NO RESPONSE

101 = IDEOLOGICAL FACTORS NOT DIRECTED SPECIFICALLY TO U.S.

All ages If they're Communists, they wouldn't let us.
Didn't want a capitalistic country trying to industrialize them.
Political regime not compatible with the American corporation.

102 = OPPOSITION TO POLITICAL OR ECONOMIC POLICIES OF U.S. GOVERNMENT

All ages Maybe they weren't in agreement with the thinking of the country that the company was giving the aid belonged to.
They may not agree with some U.S. foreign policy.

103 = FEAR INFLUENCE OF U.S. GOVERNMENT OR OF FIRM ON THEIR POLITICAL STRUCTURE

Age 17 Maybe the foreign country didn't like the United States.
They may be afraid that we will take over and run their country.
Probably don't want anything to do with our industries because we would take it all over.
They don't want interference in their affairs.
A lot of people regard America as imperalistic country and they might think that America wants to come in and take over.
They have control of the country and don't want to yield any power to anyone else.

Adults Fear of American oppression and leadership.
Make them dependable and obligate them too much toward the U.S.
Afraid they would be exploited.
Fear of the influence that foreigners would have upon the people and their way of life.

104 = POLITICAL AND ECONOMIC INFLUENCES OF OTHER NATIONS

All ages They could be communist backed or funded.
It depends - if they were more on a communist side, they'd want trade with a different country than ours.

---

Categories and sample responses are listed below.

105 = COMPETITION FROM OTHER FIRMS OR COUNTRIES

All ages Maybe another country made a better offer to them.
Competitive situation where someone else may be interested in the natural resources.

106 = FEAR DAMAGE TO INFANT INDUSTRIES OF THEIR OWN

Age 17 Usually when American business goes in, it usually takes over the other business.
Don't want competition.

Adults If we employ their citizens, there would be less people for them to employ.

107 = DESIRE TO DEVELOP THEIR OWN INDUSTRIES AND RESOURCES

Age 17 They felt they would rather do it themselves.
They wanted to nationalize the oil or what ever it is.
Their government maybe felt they could make it on their own.
They just don't want the resources used - they might be keeping them until later needed.

Adults Keep resources for themselves. They look forward to later developing with their own future and rate of development.
That country would like to establish its own industry.

108 = PRODUCT OR INDUSTRY DOES NOT FIT INTO COUNTRY'S ECONOMIC OR SOCIAL PRIORITIES

Age 17 Don't want a little industry - prefer a bigger one and could get more money for it.
It could be against their religion or moral values.
They may have determined that the product of industry is more hazardous than beneficial to the country.

Adults No samples given.

109 = ADVERSE EFFECTS ON OR NO BENEFIT TO THE NATION'S ECONOMY

Age 17 They probably wouldn't profit any by it.

Adults We're less likely to import their products, we'd be importing our own back into our country.
The money will be leaving the country and not benefiting them.
They may not have offered the country enough of the profits.

Categories and sample responses are listed below.

110 = ADVERSE EMPLOYMENT PRACTICES OF THE U.S. FIRM

Age 17 All executives would be American and if in time they wished to take over it would be difficult.
Their people may not be trained and therefore people would have to be brought in.
Adults Because they underpay their employees--such as in Japan they only pay people pennies a day.
It may take people out of their present jobs into our jobs.
There may be problems among workers of a foreign country.
They fear Americans will take the jobs from their people.

111 = ADVERSE EFFECTS ON NATURAL RESOURCES OF THE COUNTRY

Age 17 They didn't want their resources ruined and depleted.
They have probably seen other small nations natural resources depleted by the same thing and do not care to have it done to them.
They don't want to use up their resources.
Adults After resources are used up there would be only waste.
They may feel Americans will take over their resources.

112 = PREVIOUS BAD EXPERIENCES WITH FOREIGN INVESTORS

Age 17 Because of previous association with the Americans.
Maybe because of war or colonialization.
They have seen through history how American nations are greedy when they have gone into a country.
Adults No samples given.

113 = DON'T LIKE AMERICANS OR AMERICANIZATION

Age 17 They didn't want Americanization to start in their country.
Maybe they just don't want Americans there.
They might resent American intrusion into their country.
Adults Don't particularly like American ideals.
Over-population, bring more American families and workers into their country.

114 = FEAR OF FOREIGNERS IN GENERAL

All ages They wanted to keep the foreigners out. Maybe there was a feeling that maybe the foreigners were trying to steal it from them.
They might not want a foreign industry in their country because it might cause trouble.
Hate for all type of foreign intervention.

---

Categories and sample responses are listed below.

115 = POLLUTION

All ages By seeing the pollution problem in the U.S.
Maybe they're afraid of pollution cause they probably don't have any.
Air pollution and noise.
They don't want their environment spoiled.
Possible threat of pollution and damage the country.

116 = POLITICAL - SOCIAL DISLOCATION

Age 17 A lot of people would move in and get overpopulated.
Didn't want large industry to come in and disrupt customs of their country.
Did not want city to put up with all the problems that go with industry.
Adults Too much growth too fast for them.
They might be afraid their people would make too much money and become too independent.
It would make too many changes that they wouldn't want.

117 = DESTROY FLORA, FAUNA, OR LAND

Age 17 It'd take up their land and if they grew real good crops on it, it would ruin their land.
Because they want to preserve their wildlife and forestry.
Adults Fear of destruction of their land by a foreign power.
It might disturb the natural beauty of the area.

118 = OTHER ACCEPTABLE RESPONSES

Age 17 They don't like what the company stands for.
People of their own country would resent this.
Maybe they weren't friendly with the corporation.
Adults Weaken the power of the dictatorship with their people.
Possibly they picked the wrong area of the country to locate and where they don't want industry.

251 = COMMON DISPARAGING GENERALIZATIONS

Age 17 They don't want to be up to date.
They don't want progress and they like what they have.
Probably didn't know enough about the industry and didn't try to find out.
Adults They are stupid; lack of education.
Ignorance of what can be done economically for them.

Categories and sample responses are listed below.

252 = INCORRECT REASONS

Age 17
They didn't need any of their help.
They don't want any more industry in their country.
Most likely they can get whatever by trade.
I guess because they didn't have enough land.
Not enough workers.
Maybe they don't want to get modernized.

Adults
They may not care to have the nation become industrialized.
They may wish to keep the people poor so as to make them dependent on their leaders.
The employment rate in this community may be up--new industry not needed.

298 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 17
They don't have enough money or trading materials.
The American has enough big industry.
The big company might use it as a tax write-off.
They don't want us to progress any further.
Not worth the time.
They're not used to having industry.
There would probably be a money shortage.
Look at our industries now.

Adults
Upset the economy.
It would be taking up a lot of their space when they usually need it.
Special interest groups want to keep the wage standard low.
The little people are happy the way it is now.

299 = I DON'T KNOW

All ages
I don't see any reasons.
I can't see why they would turn down the American manufacturer.

Fill in the oval beside the word "Yes" for each river listed if it is in the United States. Fill in the oval beside the word "No" if the river is NOT in the United States. If you do not know the answer, fill in the oval beside "I don't know." An example is done for you.

Example:

Is the Nile River located in the United States?

○ Yes
● No

○ I don't know.

You would fill in the oval beside "No" as is shown, because the Nile River is not in the United States. Now you do A through E in the same way.

A. Is the Amazon River located in the United States?

○ Yes
● No

○ I don't know.

(Continued)

B. Is the Mississippi River located in the United States?

● Yes
○ No

○ I don't know.

D. Is the Ohio River located in the United States?

● Yes
○ No

○ I don't know.

Release #: UKG07

NAEP #: 404028-1

Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.

Subobjective: D. Understand some of the major characteristics of the geographic (spatial) distribution of man and his activities, and of man's interaction with the physical environment.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Overlap: 9
Package-Exercise: 03-08
National P-value:
UKG07 39.85

Timing: (in seconds)
UKG07 Stimulus: 12
UKG07 Response: 36
UKG07 Total: 60

EXERCISE: UKG07

Responses to exercise dealing with understanding geography.

RESPONSE: 09 AGE: 9 No response.

The table below gives the latitude and longitude of five places which are assumed to be at the same altitude. Use the information given in the table to answer the question below it.

| Place | Latitude | Longitude |
|---|---|---|
| A | 2° N | 65° W |
| B | 46° S | 171° E |
| C | 42° N | 83° W |
| D | 48° N | 14° E |
| E | 30° S | 31° E |

Which one of the five places probably has the WARMEST climate?

● A
○ B
○ C
○ D
○ E

○ I don't know.

Release #: RKG09

NAEP #: 404029-234

Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: D. Understand some of the major characteristics of the geographic (spatial) distribution of man and his activities, and of man's interaction with the physical environment.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text/Table

Ali lives in the hot, dry desert. Ali's family lives a day's camel ride from the market.

Which one of the following is the BEST reason for Ali to use a camel to go to the market?

○ It is fun to ride a camel.
○ A camel listens to Ali's orders.
○ A camel's humps keep Ali from falling off.
● A camel can travel a long distance without drinking water.

○ I don't know.

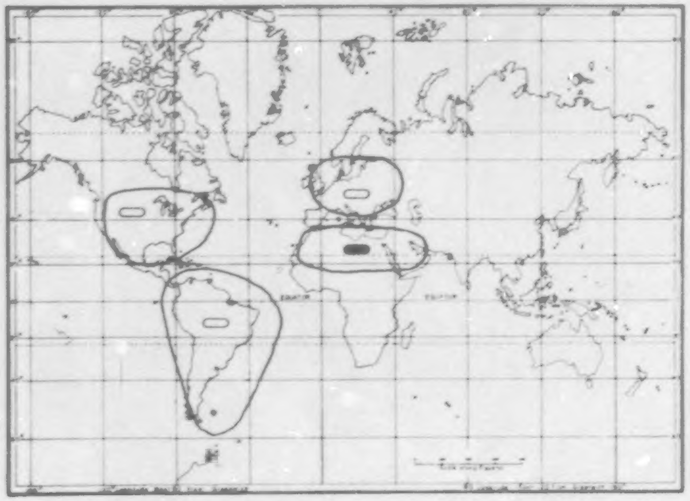
On the map below, four areas of the world are outlined in red. Each outlined area contains a small red oval. Fill in the oval inside the area which as a whole has little rainfall.



⊂⊃ I don't know.

Release #: RKG14

NAEP #: 404006-234

Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: D. Understand some of the major characteristics of the geographic (spatial) distribution of man and his activities, and of man's interaction with the physical environment.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text/Map

In which one of the following societies would you be MOST likely to find a relatively low birth rate and a relatively low death rate?

○ In an agricultural village
● In a highly urbanized country
○ Among a group of nomadic shepherds
○ In a country in the process of industrialization

○ I don't know.

Release #: RKG15

NAEP #: 402011-34

Theme: KNOWLEDGE.
Subtheme: Geography.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.

Subobjective: B. Understand some of the major relationships involving culture, the group, and the self.

Subobjective: D. Understand some of the major characteristics of the geographic (spatial) distribution of man and his activities, and of man's interaction with the physical environment.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

*(Before reading this exercise, give respondent the supplementary package opened to page 2.)*

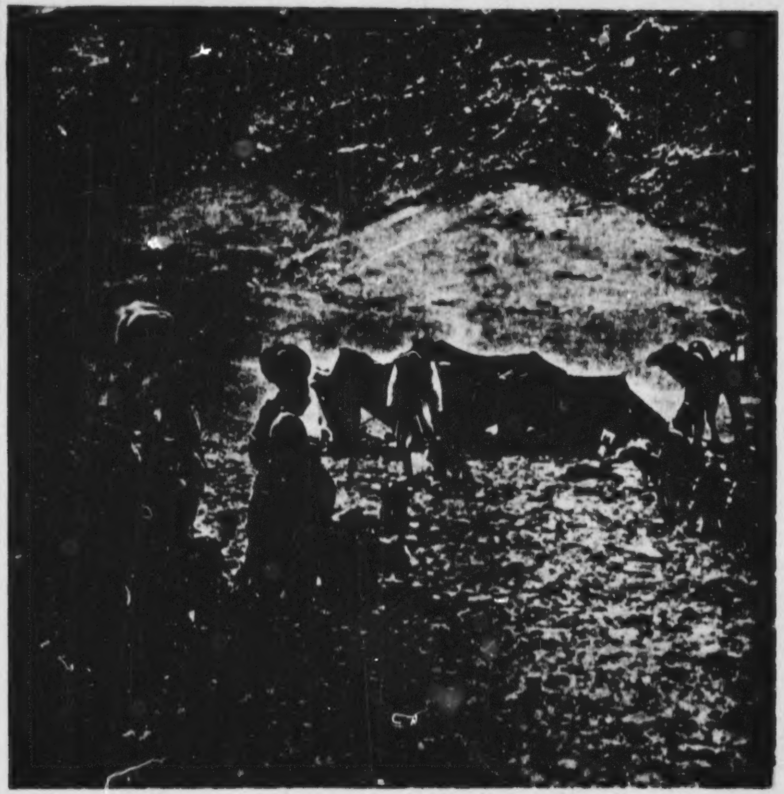
(Continued)

Please look carefully at this picture of a family living in a desert area. How has this family adapted itself to the climate and physical features of the desert?

(1) ______________________________

(2) ______________________________

(3) ______________________________



*(If respondent has difficulty understanding the question ask, "What does the picture show you about how this family has learned to live in a desert area?"*

*If no response is given in 10 seconds, go to next exercise.*

*If respondent pauses after first response ask, "Are there any other ways this family has adapted itself to desert living?" or "Does the picture show you anything else about how this family has learned to live in a desert area?"*

*Stop after 3 responses OR when respondent answers "No" OR no response is given in 10 seconds.)*

SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = CLOTHING--DESCRIBES AND TELLS WHY

Age 9 They have white clothes to keep cooler.
The sandals don't fill up with sand.
Wrapping cloth around their face so sand won't fly in their eyes.

Age 13 Use warm clothes to keep cool from sun. Hats to protect faces from the sun.
Wearing long capes around them and a thing from their hat they can put over their faces to protect from the wind.

Age 17 They wear desert clothes, something to wear on their faces and robes to protect them from dust and wind storms.

Adults By the way they dress. The turbans and a lot of clothes to protect from the heat.

11 = SHELTER--DESCRIBES AND TELLS WHY

Age 9 They sleep under tents to keep in the shade.
They have a tent because it is too hot to have a house.

Age 13 Their shelters are up against the mountains so if there is a sandstorm, it won't go into their houses.

Age 17 They live in a tent so if the water dries up they can move easily to another area.
Open air type tents would catch a breeze but protect them from the sun.

Adults Shelter-they have a tent which gives them protection from blowing sand.
Makeshift tent so they can move when food and water runs out.

12 = TRANSPORTATION--DESCRIBES AND TELLS WHY

Age 9 The camel carries their equipment, he can go for days without water. He has special padded feet, and eyelids to protect him from wind and sand if there is a storm.

Age 13 Using a camel for transportation. Camels can go without water for a long time.

Age 17 The camel helps carry supplies and doesn't need as much water.
Use camels for transportation because they can last longer than a car, a car would overheat.

Adults Transportation - camel - not many [illegible] can go without water, but camels can.

Categories and sample responses are listed below.

13 = FOOD AND WATER--DESCRIBES AND TELLS WHY

All ages They have animals for food. They know they can't raise crops there and this having animals gives them food.

14 = GENERAL MODE OF LIFE

Age 9 They're settled by an oasis for water to drink and wash clothes.
Age 13 No samples given.
Age 17 They raise goats and sheep because they are easier to keep alive. They can live off of anything.
Adults Travel for food for their animals. They are a nomad family.
They have very few belongings. They can move to a new food supply very easily.

15 = CLOTHING--GIVES ONLY DESCRIPTION OR REASON

Age 9 Wear cool clothes.
Their clothes are loose.
They are wearing clothes that keep them from getting too hot or too cold.
Age 13 They wear sandals.
The clothes keep the sand from hitting them.
Age 17 Clothing protects them from sun and wind.
Clothes are white and cool color.
Their clothing keeps the heat out and the body cool.
Adults They have learned how to dress to keep from getting burned up.

16 = SHELTER--GIVES ONLY DESCRIPTION OR REASON

Age 9 Tents for keeping the sun off.
Tents for shelter.
They live in tents.
Age 13 They live in a tent instead of a house.
Type of housing that they could move along when they got ready.
Age 17 Tents to get out of the wind on the desert.
Tents because of heat and moving.
Adults Their home is easy to move.
Housing from hides of animals.

Categories and sample responses are listed below.

17 = TRANSPORTATION--GIVES ONLY DESCRIPTION OR REASON

Age 9 Pack camels for travel.
They ride camels because they can haul a lot of stuff.
Age 13 Learned to ride on a camel.
They have a camel which is adapted to desert living.
Age 17 They use camels because they can go without water.
Adults They have camels for transportation.

18 = FOOD AND WATER--GIVES ONLY DESCRIPTION OR REASON

Age 9 To keep animals for food.
Raise sheep for wool and meat.
Age 13 Have animals for meat to eat.
Age 17 Like they can use the goats for milk for drinking and use the camels to carry supplies.
Food-they probably eat dates, camel milk, whatever you find in the desert.
Adults Sheep are adapted to desert living as they can exist on very little vegetation.

19 = MODE OF LIFE--DESCRIBES BUT GIVES NO REASON

Age 9 They travel all the time.
They learned to herd sheep.
Age 13 They have animals that can live in the desert.
Age 17 They are protected from storms by the mountains.
They have a supply of water. They raise animals and sell them and they have a camel for traveling.
Adults They are nomads so they move around a lot so they travel light.
Probably kill their own food.

20 = RESPONSES WHICH INDICATE NEGATIVE ATTITUDE TOWARD LIFE IN THE DESERT

Age 9 They need to take a bath. They look dirty and they need new clothes.
The place is all messed up.
They have tents, because they can't afford anything else.
We live in a better area.
Age 13 Their poor, starving, the transportation is weak. Soil too weak to make anything off of it.
They ain't got much of a house, don't see no water.
Age 17 They don't have luxeries, they are uncivilized.
Adults Hard to live--just existing.
They don't seem to be trying to better themselves.

Categories and sample responses are listed below.

21 = RESPONSES WHICH INDICATE LACK OF KNOWLEDGE OF DESERT LIVING

| | |
|---|---|
| Age 9 | They have to hunt for their food. |
| | Living there has made them poor. |
| Age 13 | Hot clothes on. |
| | They have a farm with all the animals. |
| Age 17 | They lock overdressed. |
| | They don't have money for normal living so they just adjusted to what they got. |
| Adults | They must have food brought in maybe by helicopter. |
| | They live in tents because there is nothing else to live in. |

27 = VAGUE RESPONSES

| | |
|---|---|
| Age 9 | Make tents. |
| | They have lambs and a camel. |
| | They go camping together. |
| | The tents. |
| Age 13 | They have camels. |
| | All wrapped up. |
| Age 17 | Wear things on their head. |
| | They have a lot of camels. |
| | All the people around there. The sheep. |
| Adults | Built a tent. |
| | Dress--completely covered. |

[illegible] = MORE VAGUE, IRRELEVANT, AND NONSENSICAL RESPONSES

| | |
|---|---|
| Age 9 | They learned to play together. |
| | They learned to hunt together. |
| | Have to be smart to look for an oasis. |
| | They have different homes. |
| Age 13 | All of them are smiling. |
| | They're tanned. |
| | Born to understand the heat and live there. |
| Age 17 | Clothes. |
| | Animals. |
| | Food source. |
| | They are alone; just a family and all. |
| | Mostly by the clothes they are wearing. |
| Adults | They have adapted very well. |
| | They are used to this climate. |
| | Nature of survival. |

29 = I DON'T KNOW

*(Before reading this exercise, give respondent the supplementary package opened to page 11.)*

This is a picture of the construction of a highway. What effects do you think the construction of the highway will have on the lives of the people nearby?

(1) ______________________________

(2) ______________________________

(3) ______________________________

*(If respondent answers "Nothing" OR no response is given in 10 seconds, go to next exercise.*

*If respondent gives a one-word reply or very short reply, ask him to explain his answer more completely.*

*If respondent pauses after first response ask, "__Are there any other effects you can think of?__"*

*Stop after 3 responses OR when respondent answers "No" OR no response is given in 10 seconds.)*

Release #: RKG18

NAEP #: 404023-1234

Theme: KNOWLEDGE.
Subtheme: Geography.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.

Subobjective: D. Understand some of the major characteristics of the geographic (spatial) distribution of man and his activities, and of man's interaction with the physical environment.

Exercise Type: Short answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal/Visual-Picture

| Overlap: | 9 | 13 | 17 | Adult |
|---|---|---|---|---|
| Package-Exercise: | 07-11 | 08-03 | 11-13 | 03-01 |
| National P-value: RKG18-18 | 47.10 | 75.09 | 82.33 | 84.63 |

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

99 = NO RESPONSE

10 = HEALTH HAZARD (POLLUTION, NOISE)

Age 9
I would put some cotton in my ears--cause it would be so noisy-- close the windows.
There will be a lot of dust, it will be smoggy and noisy.
Making too much noise--can't hear what their family says when they talk, can't sleep for noise.

Age 13
Noise pollution.
I think the people will get angry because they won't have peace and quiet.
Noise of the cars will keep them awake at night.
Air pollution.

Age 17
More tendency to have clogged up lungs from pollution.
Noise, dirt.
Exhaust.
Get their house and clothes dirty.
Noise 24 hours a day.
Confusion, noise, property damage.

Adults
More noise in the area.
The neighborhood will be very noisy and not as pleasant a place to live as before.
Pollution from the cars.

11 = HEALTH HAZARD (SAFETY)

Age 9
Lots of accidents around your house.
Dangerous for little children.
Some people hurt by machines.
They could have a wreck because of the deep place and its slick.

Age 13
A lot more people will drive on it and a lot more little kids will get killed.
The kids might run out in the road.
It would be bad if any little kids lived there if a ball went over a wall they might get run over.

Age 17
The little kids couldn't play outside.
Accidents.
Animals, pets getting hit by cars.
Children endangered by equipment.

Adults
Hazardous for children.
Children will have to be watched.
Dangerous.
Danger is increased for the children and wrecks. (Might land up in yards nearby.)

Categories and sample responses are listed below.

12 = DISPLACEMENT OF PEOPLE, REMOVAL OF HOUSES

| | |
|---|---|
| Age 9 | They will have to get out of the house because they will have to tear the house down to build the highway.<br>They might have to move.<br>People's houses will get knocked down. |
| Age 13 | They will have to start their life over.<br>They'd be homeless.<br>They will probably have to move the house.<br>Could destroy their houses--probably have to tear down houses, heavy duty equipment moved shake houses. |
| Age 17 | They might have to sell their house.<br>People will probably move away.<br>Lots of them will have to move because highway will buy land.<br>Have to tear down their house. |
| Adults | Many people would have to sell their homes and relocate.<br>The people will have to move.<br>Many people will probably have to relocate, that is usually a problem. |

13 = DECREASE IN SIZE OR VALUE OF PERSONAL PROPERTY

| | |
|---|---|
| Age 9 | Disturb play area.<br>They might go through some of their property. They might ruin their garden and house. |
| Age 13 | May have to knock some of their stuff down that they made and that belongs to them.<br>Highway might cut through yards and cause people to build fences.<br>They won't get as much money for their houses. |
| Age 17 | Bring property value down.<br>Have a smaller yard.<br>Depreciate the house value.<br>The people living near have to give up some of their land. |
| Adults | It'll take part of their property.<br>Heavy traffic will damage the house as it will cause the foundation to shift and crack walls. |

14 = EXPENSES OF BUILDING HIGHWAYS (LOSS OF TAX BASE, HIGHER TAXES)

| | |
|---|---|
| Age 9 | Ask for more money to build it.<br>Taxes--people would have to pay to build a house again. |
| Age 13 | Raise the level of taxes.<br>Raise taxes. |
| Age 17 | The expense of building the highway.<br>People's taxes will probably go up.<br>It's going to cost them some money.<br>They might have to pay more in taxes. |
| Adults | No samples given. |

---

Categories and sample responses are listed below.

15 = REMOVAL OF EXISTING FACILITIES (BUSINESSES, PARKS, SCHOOLS, TRANSPORTATION)

| | |
|---|---|
| Age 9 | Kill some of the animals.<br>They tear down trees.<br>If there were trees they might have to cut them down. They might have underground pipes and have to make another way for them to go. |
| Age 13 | Soil erosion.<br>Messing up their land.<br>Will ruin their landscape.<br>It would wreck the beauty of the neighborhood. |
| Age 17 | It would also affect the wildlife that lives around there.<br>They'll take away the resources, the trees. |
| Adults | It will cause soil erosion and destroy the beauty of the landscape. |

16 = OTHER ACCEPTABLE DISADVANTAGEOUS EFFECTS

| | |
|---|---|
| Age 9 | This machine could break and cause damage to a house.<br>Shake the house they might think its a earthquake. |
| Age 13 | They won't have as much privacy.<br>Lights at night annoying.<br>Could be easy to rob so close to the highway.<br>They won't have much privacy in their yards. |
| Age 17 | Lights be shining in the windows all nights.<br>No privacy.<br>Men might lose their jobs because they can't find another home close enough to this place and they will have to look for new work.<br>People pollution, there are more people coming into the area. |
| Adults | The people in neighborhood would have to watch out for the workers, to see they, the workers, didn't bring any harm to their household. |

17 = REDUCTION OF TRAVEL TIME; INCREASED EASE OF TRAVEL; HELPS TO GO PLACES

| | |
|---|---|
| Age 9 | Make it easier for them to drive someplace.<br>It would help them because the highway's near where they live won't be so crowded. |
| Age 13 | It would be good for transportation so they wouldn't have to go all the way around.<br>Easier road to travel than gravel. |
| Age 17 | It might help the people to get where they are going faster. |
| Adults | Give access to better road and faster travel. |

Categories and sample responses are listed below.

18 = CREATION OF FORCE FOR NEW BUSINESSES AND HOUSING

| | |
|---|---|
| Age 9 | New and better stores will be built on the highway. |
| | There will be more business. |
| | The city would grow. |
| Age 13 | It could bring in and build up industry and it might make more tourist trade. |
| | After the highway is built a lot more stores might be built. |
| | There might be more people move into the area. |
| | More people would want to live there. |
| Age 17 | It will make business better for eating places and filling stations. |
| | If it is a small town it will probably bring business. |
| Adults | Help people who have stores like luncheonettes. |
| | Better business. |
| | Bring more business to where they are living. |

19 = OTHER ACCEPTABLE ADVANTAGEOUS EFFECTS

| | |
|---|---|
| Age 9 | They will be able to go to more places. |
| | They might have less accidents. |
| | Have a new highway to travel on. |
| Age 13 | There is a good part. Less dust, fewer accidents with a better highway. |
| | Keep a lot of traffic off smaller highways. |
| | People will have new routes to go. |
| Age 17 | It could supply employment for some people who would help construct the highway. |
| Adults | Increase property value. |
| | Update the property. |
| | Eliminate old run down buildings--better new ones. |
| | It will provide better transportation facilities for those living nearby. |
| | It will be something interesting for the children to watch if the workers will take time to explain their work to them--educational for them. |

20 = NOT CONCERNED ABOUT EFFECTS OF PROBLEM

| | |
|---|---|
| All ages | Nothing |
| | Wouldn't have any effect. |
| | None. The house that is there is protected by a fence. The other one looks like a vacant lot. |

---

Categories and sample responses are listed below.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 9 | Car could be hit, glass fly up and hit a window. |
| | There might be accident from icy roads. |
| | Children won't have any schools to go to. |
| Age 13 | Keep litter away, more litter on a gravel road than on a highway. |
| | Pain in the neck. |
| | Have a different environment. |
| Age 17 | Inconvience them. |
| | Halt business. |
| | The people who moved may become hateful and prejudiced against progressiveness. |
| | They will feel that this is the end of the world. |
| | Going to change their way of living. Children will have to learn to adapt. |
| Adults | Too close to house. |
| | It will be very hard for elderly people to adjust to new living. |

29 = I DON'T KNOW

**EXERCISE: RRG18-01**

This is a picture of the construction of a highway. What effects do you think the construction of the highway will have on the lives of the people nearby?

RESPONSE: 00 AGE: 9 No response to the entire exercise.

| Overlap: | | |
| Package-Exercise: | 11-04 | 08-08 |
| National P-value: | | |
| RKG20-26 | 29.58 | 36.70 |

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

### 999 = NO RESPONSE

### 101 = THE NEWNESS OF NATIONALISM--GOOD RESPONSE

Age 17
The tribes are older and more established than the country.
Because that is the way they have lived for all these centuries they couldn't accept nationalism.
They were unfamiliar with the national government but they knew their own tribe so they were loyal to it.

Adults
Tribal history goes back a lot farther than current nationalism.
Because the nation was brand new and the tribes were centuries old in traditions.

### 102 = THE NEWNESS OF NATIONALISM--MINIMAL RESPONSE

Age 17
Their fathers believed this way.
They would rather--that's their tradition.
They have lived in their tribes a long time.

Adults
Well! National allegiances is a modern concept.
You are talking about heritage.

### 103 = SOCIAL AND CULTURAL BONDS OF THE TRIBE--GOOD RESPONSE

Age 17
Life so interdependent in tribe--don't need anything else outside.
Their tribal customs might hold nationalism back.

Adults
Tribal allegiance is too closely related to their religious beliefs--they find it hard to make such a break.
The tribes try to protect their own people and have own laws and rules.
In nationalism they felt they would lose their identity.

### 104 = SOCIAL AND CULTURAL BONDS OF THE TRIBE--MINIMAL RESPONSE

Age 17
Religious beliefs.
The tribes always stuck together as a unit.

Adults
Strong tribal ties.
They want to keep their own ways.
Security in past tribe rules and successes.
Heritage--customs that came up through the elders.

---

Categories and sample responses are listed below.

### 105 = COMPETITION BETWEEN TRIBES--GOOD RESPONSE

Age 17
When the European powers set boundaries for colonies they didn't pay attention to tribal boundaries, only their own administrative ease; thereby putting together some tribes who had been traditional enemies.

Adults
Tribes frequently warred with one another and nationalism put them in a social end.
This is because of no understanding of each other and this would lead to suspicion.

### 106 = COMPETITION BETWEEN TRIBES--MINIMAL RESPONSE

Age 17
No trust for other tribes.

Adults
They didn't want to consolidate their tribes.

### 107 = PHYSICAL ISOLATION, LACK OF COMMUNICATIONS--GOOD RESPONSE

Age 17
Lack of communication and education.
Because in Africa the jungles didn't permit them to be really united as a country.

Adults
Communications and most of the small tribal groups weren't in contact beyond their groups.
Lack of communication throughout the country caused the tribes to stick together as a unit rather than as a nation they could not see.

### 108 = PHYSICAL ISOLATION, LACK OF COMMUNICATIONS--MINIMAL RESPONSE

Age 17
Lack of travel.

Adults
They have no communication with much of the outside world and they didn't trust others.

### 109 = LANGUAGE BARRIERS (DID NOT SEPARATE GOOD FROM MINIMAL)

Age 17
They probably couldn't get to the other tribes and probably couldn't speak their language anyway.
So separated by language, lack of communication with 20th century.

Adults
Language barriers.
This causes differences in language and customs and philosophy of life.

Categories and sample responses are listed below.

111 = EFFECTS OF COLONIALISM--GOOD RESPONSE

All ages Africa has always had a tribal system of government.

112 = EFFECTS OF COLONIALISM--MINIMAL RESPONSE

No samples given.

113 = POLITICAL REASONS, DISSATISFACTION WITH OR LACK OF KNOWLEDGE ABOUT THE NATIONAL GOVERNMENT--GOOD RESPONSE

Age 17
Because the nation was trying to tell the tribes what to do.
The African countries are still young and they're not used to the national democratic way of life.
No real intrusion by a powerful government which would influence the people.

Adults
The leaders of the tribe don't want the control of the people changed and with nationalism they would lose this control.
Lack of a stable national government.
Black tribes are starting to take pride in themselves. They are trying to become a nation and be recognized.
Most of the nation states were of a despotic nature and didn't claim to the people's allegiance.
Tribes operate as a unit for survival reasons. Nation probably doesn't do much for people to help it survive.
A lack of a strong leader appealing to more than one tribe.

114 = POLITICAL REASONS, DISSATISFACTION WITH OR LACK OF KNOWLEDGE ABOUT THE NATIONAL GOVERNMENT--MINIMAL RESPONSE

Age 17
They don't know what nationalism is or a government even.
They like to run their own tribes.
Maybe they didn't like the way the country was run.

Adults
Lack of a central government. They don't feel a part of a particular country.
There was no established nationalism. Tribes very independent, no formal government.
Maybe they didn't understand the nation's politics.
They may not have trusted the national leaders.
Tribal dictatorships didn't want to give up their power.

---

Categories and sample responses are listed below.

115 = EDUCATION - GOOD RESPONSE

All ages
People were probably illiterate and had no contact with the rest of the nation. Only identified with their own tribe.
Uneducated people find it hard to change allegiances.
They had their own chiefs and the chiefs didn't want to give up their power--they weren't educated so it was difficult to understand other peoples culture.

116 = EDUCATION - MINIMAL RESPONSE

All ages
Their lack of education.
Because they were illiterate.
Uneducated people are hard to communicate with.
No education-whatever they were told by the witch doctors or leaders they believed.
Because of poor education.

117 = ECONOMIC FACTORS - GOOD RESPONSE

No samples given.

118 = ECONOMIC FACTORS - MINIMAL RESPONSE

No samples given.

119 = OTHER ACCEPTABLE RESPONSES

All ages They have a lot of pride and want to show other people that they can do for themselves.

121 = RACIAL FACTORS - GOOD RESPONSE

No samples given.

122 = RACIAL FACTORS - MINIMAL RESPONSE

All ages
Conflict between white and Negroes.
Racial problems.
They may have been afraid of the white man.

Categories and sample responses are listed below.

251 = COMMON DISPARAGING GENERALITIES

All ages They weren't really civilized enough to know they should have pride in their country.
Ignorant and uncivilized, did not know about nationalism.

252 = INCORRECT REASONS (IDEA IS INCORRECT BUT RELEVANT TO PROBLEM)

All ages They only depended on one person and they would treat him like a king. It's up to him.
They felt that they wanted to progress and to progress, this would be the best way.

298 = VAGUE, NONSENSICAL, IRRELEVANT RESPONSES

Age 17 They just had more respect for that god than they did for the person who set up the national boundaries.
There was starvation and medication for the diseased.
There are a lot of tribes there.
Nobody cared about nationalism.
It was hard to be united.
Like a power from the government.
Because of their color.
Big companies moving in to find deposits of diamonds.
Maybe they wanted to better educate themselves.
Tribes didn't want to be divided into different countries.

Adults They were backward when it came to progress.
Because the people have to agree for survival. That was more of a reality than the national course.
Superstitutions.
People in general are always considering only what is happening right around their own area.
Ignorance of the unknown.
Economic reasons.
Maybe because the people make the country.

299 = I DON'T KNOW

Which one of the following countries has had the MOST influence on the way of life in the United States?

● England
○ France
○ Germany
○ Italy
○ Spain

○ I don't know.

Release #: RKH01

NAEP #: 405006-1234

Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: E. Understand some of the major historical developments.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

| Overlap: | 9 | 13 | 17 | Adult |
|---|---|---|---|---|
| Package-Exercise: | 01-12 | 04-15 | 07-17 | 01-05 |
| National P-value: | | | | |
| RKH01 | 39.77 | 67.30 | 78.73 | 77.09 |
| Timing: (in seconds) | | | | |
| RKH01 Stimulus: | 14 | 15 | 14 | 14 |
| RKH01 Response: | 36 | 10 | 7 | * |
| RKH01 Total: | 60 | 36 | 31 | * |

*Time not limited by paced tape.

Which one of the following is a reason the American colonies rebelled against Great Britain?

○ To abolish slavery

○ To obtain more religious freedom

○ To obtain the right to vote for all adults

● To obtain more control over what they might produce or with whom they might trade

○ I don't know.

What was the MAIN purpose of the Declaration of Independence?

○ To criticize King George III

○ To declare war on Great Britain

○ To abolish the Articles of Confederation

● To declare the colonies free from Great Britain

○ I don't know.

Release #: RKH07

NAEP #: 405041-234

Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: E. Understand some of the major historical developments.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Who was the FIRST President of the United States?

○ Dwight D. Eisenhower

○ John F. Kennedy

○ Abraham Lincoln

● George Washington

○ I don't know.

Release #: RKH08

NAEP #: 405028-1

Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: E. Understand some of the major historical developments.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Overlap: 9
Package-Exercise: 01-08
National P-value:
RKH08 82.88

Timing: (in seconds)
RKH08 Stimulus: 12
RKH08 Response: 38
RKH08 Total: 61

**EXERCISE: SKH08**

American Indians, Black Americans, Oriental Americans, and Spanish-speaking Americans have contributed a great deal to the history and culture of our nation. For each of the groups I read tell me the names of as many famous or nationally known men and women as you can. The person named may be either living or dead. Briefly describe each person's contribution or field of work. Consider people in ANY field of work–the Arts, Business, Civil Rights, Education, Entertainment, Politics, Science, or Sports.

*(If respondent does not appear to understand the terms "Oriental" or "Spanish-speaking," you may explain that for this exercise the term Spanish-speaking refers to Americans of Mexican, Puerto Rican, and Cuban heritage and the term Oriental refers to Americans of Chinese or Japanese heritage. If respondent mentions or desires to include a person as Spanish-speaking or Oriental who is not in one of the groups mentioned above, include the name and field of work of the person named and ask respondent if he knows the ethnic group to which the person named belongs. Place the name of the ethnic group next to the field of work.*

*If respondent has difficulty understanding the term "contribution," explain that this is what the person named has done which makes him or her famous.*

*For EACH person respondent names fill in the oval following the name given if you are certain that the person is an AMERICAN famous either locally OR nationally. Also fill in the oval following the field of work if you think respondent has correctly identified the person's contribution or field of work. If you are not certain about the person named or the field of work do NOT fill in the oval.*

*If respondent pauses before giving 5 responses in any one of the groups ask, "Can you name any other famous men and women in this group?" Move to the next group after 5 responses OR when respondent says "No" OR no response is given in 10 seconds.)*

## SCORING GUIDE: WORK CATEGORIES

Categories are listed below.

00 = NO RESPONSE

01 = PUBLIC LEADERSHIP - Prior to 1940 - Names field
Civil Rights, Indian Warrior, Indian Chief

02 = PUBLIC LEADERSHIP - Prior to 1940 - Names Contribution
Gives a specific act

03 = PUBLIC LEADERSHIP - After 1940 - Names Field

04 = PUBLIC LEADERSHIP - After 1940 - Names Contribution
Gives a specific act

05 = SPORTS - Either general designation or
Player, Manager, Organizer

07 = ENTERTAINER - (general - on T. V.)

08 = ACTOR, ACTRESS

09 = COMEDIAN, COMEDIENNE

10 = SINGER

11 = MUSICIAN ON INSTRUMENT - Mainly Entertains

12 = ARTS (Composer, Painter, Sculptor,
Opera Singer, Symphony Performers)

13 = AUTHOR, WRITER, POET

## SCORING GUIDE: WORK CATEGORIES (con't)

Categories are listed below.

17 = NATURAL SCIENCE (Geology, Biology, Agriculture, Conservation)

18 = OTHER SCIENCES (Engineering, Math, Chemistry,
Physics, Medical, Social)

20 = EDUCATION

21 = BUSINESS, ECONOMICS, MANAGEMENT

22 = RELIGION

23 = LAW (Judge, Lawyer, Policeman)

24 = U. S. MILITARY

25 = COMMUNICATIONS (Newspaper Reporter or Writer,
Radio or T. V. News Broadcasters, Photographers, etc.)

26 = LABORER

27 = EXPLORER

58 = UNVERIFIED NAME

59 = UNACCEPTABLE NAME OR WORK CATEGORY
